

JEROME BLOCKED AT EVERY POINT BY MR. DELMAS

WHO SUCCEEDED IN KEEPING OUT REBUTAL EVIDENCE MONDAY.

TRIED TO PROVE THAW SANE

Attorney Longfellow Was the First Witness Called by the District Attorney.

New York, March 11.—It was like the beginning of a new trial at the opening of the eighth week of the Thaw case this morning. Every one was alert and anxious to see the cards Jerome held back through the long examinations of the witnesses for the defense. Everyone was prepared for surprises.

Jerome looked fit and well satisfied with his preparations. The jurors were refreshed by the rest of several days.

Thaw showed no signs of anxiety or perturbation. The court room was crowded and the corridors were thronged.

Frederick W. Longfellow was called by Jerome as the first witness. There were two or three new faces inside the railing and they were said to be some of the alienists called by Jerome on Saturday. Mr. Longfellow was counsel for Harry K. Thaw at the time or Thaw's first trip to Europe. Nine of the letters introduced as evidence were written by Thaw to Mr. Longfellow.

Jerome asked him if he remembered what time in the afternoon the ship docked when Evelyn Nesbit returned October 24, 1903. He could not tell exactly. Jerome said the dock records showed the ship docked at 2:30 and the counsel for the defense admitted the fact.

In reply to another question Mr. Longfellow said he met Evelyn at the dock. This was the time the state tried to show that Evelyn tried to communicate with George Lederer before she went to a hotel. She was named by Mrs. Lederer, as co-respondent in her suit for divorce.

Jerome revealed his intention of overthrowing Thaw's insanity defense almost at the beginning of the examination of Lawyer Longfellow.

He questioned the witness about the suit Ethel Thomas began against Thaw in 1902, alleging he had whipped her. This was the suit Abe Hummel brought, but it was never pressed. Hummel's explanation offered to Evelyn Thaw being that Ethel Thomas was a bad woman, and the case could not be pushed.

Delmás challenged the question and Jerome in his argument clearly showed his hand.

He argued that he proposed to show that the tales Evelyn told Thaw of other girls being ruined by White and his friends could not have upset his mind because he had known of the cases recited by Evelyn before he ever heard her own story. Jerome declared he could show Thaw secured this information from lawsuits.

Evelyn's story told to Thaw, Jerome declared, could not have caused the "brain storm" which led to White's death.

In his argument Jerome went into details, thus getting before the jury facts which he could not have brought out on the stand. Delmas fought hard to keep out this line of testimony, insisting it was an effort to contradict Evelyn's testimony or what she had told Thaw, and there in admissible. For half an hour the argument raged back and forth between the two lawyers.

The legal storm was precipitated over the seemingly little question asked Longfellow after Jerome had established the fact that he had been Thaw's attorney for some time prior to October, 1903.

The question was "In the suit brought by Ethel Thomas were papers served on Mr. Thaw?"

Delmás, in his objections, read from the records of the case, when the court had ruled that the truth or falsity of Evelyn's story was not at issue; that it could be considered only as to its effect upon the mind of the defendant. The records showed that Delmas at that time said he was perfectly willing that the state should go into the truth of the story.

No matter which way Jerome turned he found Delmas there before him and the pathway blocked again rebuttal evidence on which the state depends for conviction of Thaw.

Delmás interposed the privilege of Thaw as a client of Longfellow and the witness could not be forced to answer. Jerome tried to show that the Hummel affidavit, in which Evelyn is alleged to have told of Thaw's reported cruelty to her, had fallen into the hands of the defense. There he

failed again. He tried to get the telephonic conversations between Longfellow and Evelyn, but could not. Delmas blocked his way to the examination of the witness on letters written to him by Thaw, and Jerome dismissed Longfellow without having made a point.

DAVIS FREE

Chicago Ordinance Held Invalid and Ingois Owner Dismissed from Custody.

Danville, Ill., March 11.—Judge Kimbrough decided that the Chicago ordinance on which was based the trial of William J. Davis, charged with manslaughter on account of the burning of the Ingois theater at Chicago, of which he was manager at the time, was invalid insofar as the prosecution of the case is concerned. The decision puts an end to the trial. The court rendered his decision following argument of counsel which has consumed two days.

Rival Suitors in a Duel.

Huntington, W. Va., March 11.—In a fight over the affections of Miss Arva Warren, Alonzo Ross of Wheeling, Ky., was perhaps fatally stabbed by Henson Nicely here. The fight occurred in the presence of the girl, who was found in a faint by her parents in the parlor of the Warren home. Nicely's mother rushed to the aid of her son with a revolver, but was overpowered. Nicely is in jail.

THREE MEN KILLED SEVERAL INJURED

By the Explosion of a Boiler on a Freight Engine in New Jersey Monday.

Meluchen, N. J., March 11.—Two men were killed and several others seriously injured as the result of the explosion of a boiler of a freight engine of the Pennsylvania railroad early today. The dead are Engineer Fischer, of Newark, and Head Brakeman Smith, of Scranton, Pa.

The freight left Jersey City for the west late last night and when just opposite the depot here the boiler exploded, hurling bits of iron and steel 200 yards away.

Freight cars were piled one above the other, and there was hardly anything left of the engine except its wheels, while the tracks on both sides were torn up.

Several of the crew were buried under the overturned cars, including the fireman and one brakeman, and both of these will probably die as the result of their injuries. The wreck caught fire, but the flames were quickly extinguished.

George Fresch of Trenton, a fireman, died this morning from his injuries. This makes the third victim of the explosion.

MRS. EDDY WRITES LETTER TO SON

In Which She Says That Mr. Fryc is a "Most Disagreeable Man."

Boston, Mass., March 11.—As an evidence of the startling exposures to be expected when the suit against the trustees of the Christian Science church comes to trial, Senator Chandler, chief counsel for the petitioners, has made public several letters received from Mrs. Eddy by her son, George W. Glover. One given out, written from Concord, April 27, 1898, shows that the founder of Christian Science was by no means on harmonious terms with her associates.

"I adopted a son," writes Mrs. Eddy, "hoping he would take Mr. Fryc's place as my bookkeeper and man of all work that belongs to man. But my trial of him has proved another disappointment. His books could not be audited, they were so incorrect. Mr. Fryc is the most disagreeable man that can be found."

"One thing is the severest wound of all, namely, the want of education among those nearest to me in kin."

"You pronounce your words so wrongly I am even yet too proud to have you come among my society, and alas, mispronounce your words as you do; but for this, I think I should be honored by your good manners."

ESCH ANNOUNCES HIS CANDIDACY

LaCrosse, Wis., March 11.—Given assurances that Senator LaFollette will not publicly endorse any one to succeed Senator John C. Spooner, Congressman John J. Esch Sunday night announced his candidacy for the position. Esch's friends say that A. C. Stephenson will be unable to control enough votes to make him a factor in the race, and Lenroot has no chance unless openly backed by LaFollette.

PROPHET DOWIE WILL BE BURIED WITH CEREMONY

IMPRESSIVE SERVICES WILL BE HELD THURSDAY IN ZION TABERNACLE.

VESTED CHOIR TO TAKE PART

No Formal Memorial Services Held Sunday, But Several Pay Tribute to the Dead.

Chicago, March 11.—Funeral services over the remains of John Alexander Dowie, who died suddenly in Zion City Saturday, will be marked by the touch of ostentation. The white-robed choir, which was short of its vestments when Overseer Voliva assumed control in Zion City, will take an active part in the ceremonies, which will occur on Thursday afternoon in Zion tabernacle. Judge V. V. Barnes, one of the few elders of the church who remained faithful to Dowie, will conduct the services and will deliver the funeral sermon. During Tuesday and Wednesday the body will lie in state in the reception hall of Shiloh house, the Dowie residence. The burial will be at Lake Mound cemetery at Zion City, beside the grave of Dowie's daughter, who died several years ago from burns caused by an explosion of an alcohol lamp.

No memorial services for the deceased were held in Zion City Sunday, the only public reference to his death being a tribute paid Dowie by one of the deacons at the early morning church service. The regular order of services was observed. Mrs. Dowie and Gladstone, her son, have arrived at Zion City.

Wilbur G. Voliva, leading the factions opposing Dowie in Zion, reconsidered his determination to say nothing regarding the death of Dowie, and declared that the death of the former leader will not affect the future of the church in any adverse manner. "Because of Dowie's sad mental and physical condition," said Voliva, "he has been a hindrance in many ways. Now that he has gone, all bitter feeling, just or unjust, will disappear."

The dead prophet was born in Scotland in 1847, his parents removing in 1860 to Australia. There Dowie took a five years' course in theology and became a master in Greek and Hebrew. In 1873 in Melbourne he set up a free Christian tabernacle, organized a divine healing association, and gained fame by going out into the country during the prevalence of a putrid fever and apparently effecting many cures by prayer and the laying on of hands. Dowie landed in San Francisco in 1888. After two years of wandering he and his family arrived in Chicago, which became the theater of his work. During the next five years Dowie was arrested at least 100 times for violations of city ordinances relating to the care of the sick, but the more trouble made for him the more he prospered. The Christian Catholic church in Zion City was organized in 1896. The value of the lace factory and other holdings in Zion City are estimated at \$28,000,000.

John Alexander Dowie's final message to the world was given to Judge Barnes, who with a nurse and one other attendant, was alone with him at the end. Judge Barnes said that Dowie died quietly and without pain and was composed. He also said that several days ago Dowie called him and, foreseeing his demise, held a long conversation with him. Judge Barnes said he could not divulge the purport of that conversation now, but is prepared to do so when the occasion arises.

SCHMITZ TRIAL BEGINS THIS WEEK

San Francisco, March 11.—The trial of Mayor Schmitz and Abraham Ruef, the one-time political boss of this city, on indictments charging extortion, promises to prove one of the sensations of the week. Mayor Schmitz was in Europe when the indictment against him was found and voluntarily returned to face his accusers. He entered a plea of not guilty when arraigned last Thursday, and at that time it was arranged to bring the case to trial on Monday. In the meantime Ruef had mysteriously disappeared, but he was located and taken into custody soon afterward.

Speaker Cannon and Party.

St. Thomas, D. W. I., March 11.—The Hamburg-American line steamer Blucher, having on board Speaker Cannon and a party of representatives who are destined for the isthmus to inspect the work being done on the Panama canal, arrived here, all the representatives going ashore. The sun was shining brilliantly and there was a great run on white linen suits, straw hats and umbrellas.

MINE LEADERS, FOUGHT BY CAPITAL, ON TRIAL FOR SLAYING GOVERNOR.

Charles H. Moyer

Harry Orchard

Caldwell, Idaho, March 11.—The eyes of the organized labor world are today focused upon the County Court house in this little mining city, watching for the outcome of the trial of Charles H. Moyer, William D. Haywood and George A. Pettibone, officers of the Western Federation of Miners who are charged with the murder of former Governor Frank Steienberg. The hanging of Moyer, Haywood

and Pettibone would cripple the Western Federation of Miners for years. Establishment of guilt would have a disastrous effect on the socialism which has taken so strong a hold on the labor organization.

Haywood, the brains and master spirit of the miners' federation, is confessedly a propagandist of socialism.

"Appeal to Reason," a Kansas socialist publication, issued more than

2,000,000 copies of what it calls the "Kidnaping Edition" two weeks ago and scattered them all over the country. According to this paper, the charge against Haywood, Moyer and Pettibone is the result of a conspiracy concocted by the Mine Owners' Association and abetted by two Governors, detectives and the Western capitalist class to crush out socialism and overthrow the Miners' Federation.

U. S. MINISTER IN FIST FIGHT WITH NICARAGUA'S PRESIDENT

San Jose, Costa Rica, March 11.—William L. Merry, United States minister to Nicaragua and Costa Rica is expected here, having been driven out of Managua, Nicaragua, following a fist fight with President Zelaya. Merry's cablegram and papers were seized by the Nicaraguan authorities, it is asserted, and issued to the United States. The prediction is made that President Zelaya will find himself in so much trouble on account of his treatment of Minister Merry that his war with Honduras

will have to be abandoned. When his papers were seized it is said Minister Merry went to see Zelaya. A quarrel ending in a fist fight followed. Zelaya's guards had to interfere to save their master.

When Minister Merry started to leave Managua it is reported soldiers tried to seize other papers. Drawing a revolver he threatened to shoot the first man who laid a hand on him. He hoisted the American flag on the first steamer leaving and sailed for Costa Rica.

FOUR PERSONS LOST LIVES IN TENEMENT FIRE

New York, March 11.—Four persons were burned to death in Brooklyn, three in a tenement fire in Bushwick avenue and a woman in her home. One man was mortally injured. The dead: Ida Bingali, 22; Mary Bingali, 3; Brigette Bingali, 4 months; Mrs. Annie Tischler, 45. Within two minutes after the fire was discovered it swept up the cellar stairs and reached the airshaft. When the firemen arrived there were more than 30 persons crowded into the front windows. Ladders were quickly raised and firemen carried all to the street with the exception of Mrs. Bingali and her two children.

Fire Attacks Wharves. Brunswick, Ga., March 11.—Fire destroyed the cross-tie wharves of B. D. Aiken, burned between 5,000 and 45,000 ties and eight boxcars of the Atlantic Coast line, and considerably damaged two four-masted schooners, the Eagle Wing and the Alma F. A. Holmes. The vessels were moored at the wharf. The total loss is estimated at between \$60,000 and \$80,000.

Block Lapped Up by Flames. Hammond, Ind., March 11.—An entire business block of East Chicago, Ind., a small town near here, was destroyed by fire, entailing a loss of \$200,000. In the block were the Myrell wholesale fruit company, the First National bank, the telephone exchange and a saloon. Several persons narrowly escaped death.

Columbia, S. C., March 11.—C. B. Green, 45, a merchant of Shandon, a suburb of this city, was waylaid and killed by Edward Marshall, who himself was killed by Green. Robbery was the motive. When found Green's clothing was on fire, his body being badly charred. The feet of the men were less than a foot apart, showing that they faced each other when they were killed. At Green's right hand was found a revolver with four empty chambers. Near Marshall's right hand was a six-shooter with five empty chambers. Under his body was a leather slingshot or sandbag, and near his head lay two burglar masks.

PRESIDENT'S SON IS IMPROVING

Washington, March 11.—Marked improvement was shown in the condition of Archie Roosevelt, the president's son, who is ill with diphtheria. Surgeon General Rixey expressed the opinion that Archie was practically out of danger so far as the diphtheria is concerned, but that the disease has left him in somewhat weakened condition. He added, however, that if no complications set in the boy should be well in two or three weeks.

Regrets Defeat of Subsidy Bill. Buenos Ayres, March 11.—Senator Zeballos, minister of foreign affairs and formerly minister of Argentina to the United States, in an interview concerning the failure of the ship subsidy bill to pass at the recent session of the United States congress, expressed his great disappointment at the fate of the bill and the conviction that the interests of both countries demanded measures for the extension of commerce which, with better communication, would develop enormously.

Wound Fatal. New York, N. Y., March 11.—Basilio Spermo, chairman of the grievance committee of an Italian branch of the operative pastries' international union who was shot at a meeting of the local society, is dead. Nicola Chiodi, secretary of the Italian branch, was held as a witness to the shooting.

FIRE TWO SHOTS INTO RESIDENCE OF JUDGE HARGIS

Jackson, Ky., March 11.—Citizens of this feud-ridden city were startled out of their sleep by shooting such as seldom has been heard here. Two shots were fired into the home of Judge James Hargis, accused of complicity in connection with the assassination of James B. Marcum. Others were fired into the store of Hargis Brothers, in which June Jett, brother of Curtis Jett, was sleeping, but he was unharmed. The home of Deputy Town Marshal Smith also was hit. The firing continued for 40 minutes.

MURDERED BY FOOTPAD BUT SUCCEEDED IN KILLING THE ROBBERS

Posse Succeeded in Shooting to Death a Negro Desperado in Georgia.

Desperado Killed. Americus, Ga., March 11.—Surrounded in a house and fighting like a demon, Bill Reese, a negro desperado, who had mortally wounded Police Officer William Morris, was shot and killed. Learning that Reese was concealed in a dwelling in a negro suburb, five policemen and Deputy Sheriff Fisher surrounded the house. Deputy Fisher and Policeman Willis rushed to the door, whereupon Reese opened fire with a revolver. At this the other officers opened fire with guns and pistols and the desperado was quickly killed with bullets. Police Officer Morris was slightly wounded.

Great Display of Foreign Ships. Washington, March 11.—In addition to the great ironclads of the Atlantic fleet, commanded by Admiral Evans, the naval display at the Jamestown exposition will include some of the finest vessels of foreign navies. These are mostly of the cruiser class, but as the armored vessels of this type are equal to battleships in size and scarcely less formidable in appearance, they will make an attractive show.

Memorial. Chicago, March 11.—Memorial service in honor of former Governor John P. Altgeld was held in the Garrick theater here under the auspices of the John P. Altgeld Memorial association, an organization having for its aim to keep alive the memory of the man for whom it has been named and to inculcate principles of free government, to which he heroically dedicated his life. Congressman Charles A. Towne of New York was the principal speaker.

Services Held on Sunday in Honor of Former Governor J. P. Altgeld.

Strike Ended in Paris. Paris, March 11.—The city has resumed its normal aspect. All the electric plants are working, the electricians having been granted all demands. The public is alarmed at the ease with which a few hundred workmen, at the instigation of the Confederation of Labor, are able to throw the population into confusion, and the newspapers print editorials demanding legislation which will prevent workmen engaged in supplying a public necessity from striking. It is pointed out that the electricians, now that they know their power, may not rest content with present conditions. It is pointed out as a significant fact that the strike committee is still holding meetings.

Demonstration of Miners. Lens, France, March 11.—The anniversary of the mine disaster at Courrières, in which more than 1,000 miners lost their lives, was celebrated by a great demonstration by the mining population of the department of Pas de Calais. Headed by bands of music and waving banners, processions marched to the cemeteries in the district, where the Socialist deputies, Basly and Lamendin, made violent speeches against the companies owning the mines.

EMPLOYEES QUIT ON STREET CARS AT LOUISVILLE

COMPANY MADE NO EFFORT TO RUN PASSENGER CARS SUNDAY.

THOSE CARRYING U. S. MAIL

Were Not Interfered With in Any Way—Strikers Demand Shorter Hours for Work.

Louisville, March 11.—This afternoon the company suspended all cars with the statement that the city is in the hands of a mob, and it is not safe to run without proper police protection.

FIRST VIOLENCE IN STRIKE.

Louisville, Ky., March 11.—The first violence of the street car strike came when the company tried to start its cars this morning although there have been no serious outbreaks so far. Crowds of strikers and sympathizers assembled around the car barns, and each car as it started out, was greeted by cries of "Scab." At Thirteenth and Main streets, a crowd of 500 men stopped the cars coming up from Portland and forced them to turn back. A patrol wagon full of police was finally sent there to control the situation. Supt. J. T. Funk was threatened at the Fourth street barn, but the police protected him from assault. At several points wagons were placed across the tracks and traffic interrupted. Nearly every one in Louisville walked to business today. Service is now being given on six lines, with 100 cars out of 600 running.

Louisville, March 11.—The strike of the union employees of the Louisville Railway company, which has been pending for a week, became effective Sunday. Although there were left nearly 300 employees out of a total of 1,100 who were not members of the union at the time the strike was called, and part of these showed up for work, the company made not the slightest attempt to run passenger cars. Only the postal cars bearing the signs "U. S. Mail" were operated. The men operating them were not molested in any way. The details of police at the barns, etc., had nothing to do. Pickets were active in an inconspicuous way, and the union leaders announced that over a fourth of the remaining nonunion employees had been won over and joined the union. A mass meeting called by the Louisville Federation of Labor was held, at which all the unions affiliated with that body pledged their moral and financial support, and arrangements for a strike fund to be contributed to by all unions in Louisville were made. Speeches were made exhorting strict obedience to the law, and the leaders of the strike pledged rigid abstinence from any form of violence and coercion.

The demands on which the strike is based are: A 10-hour workday, with 22 cents an hour pay; 45 minutes for meals; pay for extra work to begin when report for duty is made; time and a half for overtime; subsequent employees to be allowed to join the union and a board of arbitration. Officials of the company denied that they had ordered a force of professional strike-breakers from other cities. They stated that, counting the number of individual applications on file since the strike loomed up and the number of old employees holding out from the union, they would have a force sufficient to operate their main lines, and would start the service promptly and maintain it.

Strike Ended in Paris. Paris, March 11.—The city has resumed its normal aspect. All the electric plants are working, the electricians having been granted all demands. The public is alarmed at the ease with which a few hundred workmen, at the instigation of the Confederation of Labor, are able to throw the population into confusion, and the newspapers print editorials demanding legislation which will prevent workmen engaged in supplying a public necessity from striking. It is pointed out that the electricians, now that they know their power, may not rest content with present conditions. It is pointed out as a significant fact that the strike committee is still holding meetings.

Demonstration of Miners. Lens, France, March 11.—The anniversary of the mine disaster at Courrières, in which more than 1,000 miners lost their lives, was celebrated by a great demonstration by the mining population of the department of Pas de Calais. Headed by bands of music and waving banners, processions marched to the cemeteries in the district, where the Socialist deputies, Basly and Lamendin, made violent speeches against the companies owning the mines.

MAY INVOKE COURT'S AID

Commissioners Want Harriman to Answer Certain Questions.

WOULD END INVESTIGATION

Railway Magnate to Have a Conference With President Roosevelt This Week and to Be Heard Before the Interstate Commerce Commission April 4—Date For Arguments.

Washington, March 11.—Chairman Knapp of the interstate commerce commission, said that so far as the commission is concerned the taking of testimony in the investigation of the Harriman lines is closed, but that the commission has under consideration the advisability of asking the United States circuit court for the southern district of New York to compel Mr. Harriman to answer certain questions which he did not answer to the satisfaction of the commission when he was on the witness stand in New York. Pending such action Mr. Harriman's counsel asked to be heard before the commission April 4, which request was granted, and that date was recently fixed for arguments.

Mr. Harriman will have a conference with President Roosevelt next Thursday.

When Mr. Harriman's counsel asked for the hearing on April 4, at which time they want to present arguments regarding the contention that the Union Pacific and Southern Pacific are parallel and competing lines, it was understood by the commission that if Mr. Harriman's counsel desired to submit additional testimony on that date they might do so, and also if the commission desired to bring out any new point it would, but that any such additional testimony, if any, would be brief. Asked if Mr. Harriman was likely to go on the stand in such event, Chairman Knapp replied that if Mr. Harriman desired to take the stand he would be permitted.

GREAT DISPLAY OF FOREIGN SHIPS

Washington, March 11.—In addition to the great ironclads of the Atlantic fleet, commanded by Admiral Evans, the naval display at the Jamestown exposition will include some of the finest vessels of foreign navies. These are mostly of the cruiser class, but as the armored vessels of this type are equal to battleships in size and scarcely less formidable in appearance, they will make an attractive show.

MEMORIAL

Services Held on Sunday in Honor of Former Governor J. P. Altgeld.

Chicago, March 11.—Memorial service in honor of former Governor John P. Altgeld was held in the Garrick theater here under the auspices of the John P. Altgeld Memorial association, an organization having for its aim to keep alive the memory of the man for whom it has been named and to inculcate principles of free government, to which he heroically dedicated his life. Congressman Charles A. Towne of New York was the principal speaker.

MANAGER GIBBS GETS A NEW CAR

FAR SERVICE ON THE I. C. & N.
BETWEEN COLUMBUS AND
ZANESVILLE.

One of the Best Made-Railroad News
of General and Local Interest
to Newark Readers.

Mr. W. A. Gibbs, general manager of the Indiana, Columbus & Eastern Traction company, who has been in the east for the past week, has just returned to the city, coming via Cincinnati and Columbus. While in Cincinnati he secured for use on the limited on the C. N. and Z. division the parlor car "Van Wert" made by the Cincinnati Car company. This is one of the handsomest and most elaborately equipped parlor cars ever used by a traction company in the United States. It is supplied with observation vestibules in plate glass at both ends of the car, while the interior of the car is supplied with large leather lounging chairs. There is also a buffet apartment for hot lunches and hot coffee. The floors of the car are in polished hard wood, while numerous electric lights of all hues furnish the light. The car will be placed on the side tracks in front of the Auditorium on Thursday, and will be on exhibition for all who may wish to inspect it. This car was on exhibition at the last convention of street railway rolling stock and equipment in Columbus a short time ago. The company has secured six other up to date cars to be used when necessary, between Newark and Buckeye Lake in the summer and are designed to overcome any congestion of travel that may arise.

Texas Stops Late Train.
Houston, Tex., March 11.—The California flyer No. 7 on the Southern Pacific road was prevented by the state authorities from continuing its journey westward at 11 a. m. Friday. This was done in accordance with a recently passed law under which the state of Texas claims the right to order the discontinuance of any train that is more than 20 minutes late. The train was 50 minutes behind time. The California flyer had about 200 passengers on board among them a number of prominent men from New York and Boston. The discontinuance of the train caused a delay of 13 hours to all passengers and a good deal of grumbling ensued. A committee was formed to protest against the enforced delay and it is probable that a test case will be made.

Accepts Good Position.
Oren J. Anderson left on Saturday morning to accept a position as chemist in the laboratory of the Union Pacific road. Mr. Anderson is to be congratulated not only on securing such an admirable situation, but on being able to have worked up a position such as this so soon after his graduation at the University of Wisconsin last June. In his new position he will have the varied experiences so necessary to the broadening of the successful chemist, and which can be had nowhere so well as in the laboratory of a large railroad. "Andy" says that his friends can address him in care of the department of chemistry, Union Pacific Railroad, Omaha, Nebraska.

JAPAN TO BUY AMERICAN RAILWAY SUPPLIES.
According to official advices received by the department of state, the

South Manchuria Railway company, which is under the direction of the Japanese government, has decided to adopt the American system, and to place large orders for materials in the United States as an expression of appreciation of America's friendly attitude toward Japan.

TOILETS OF ANTS.

Combs, Brushes, Sponges and Soap Used in Making Them.
"Ants have fine and coarse combs, sponges, hairbrushes and soap. They are remarkably clean."
The speaker was a nature student. He bent over the artificial ants' nest, or formicary, that stood on his table under glass.
"Watch this lady making her toilet," he said. "She won't mind."
The little black ant seemed to be carefully trying and untangling knots in herself. The small black body twisted and turned. The tough little black limbs darted through the air.
"That is her fine tooth comb she is using now," explained the student. "It is affixed to the tibia of the foreleg. It has a short handle, a stiff back and sixty-five fine teeth. Nothing can escape it."
"Now she is sponging her back. Yes, the tongue is her sponge, the flat surface of the tongue. The tongue's edges are her brush. They are equipped with hemispherical bosses—short, stiff, blunt bristles. See her brushing her left foreleg with it. Doesn't it work admirably?"
"Now she is combing the hairy underpart of her body with her coarse comb. It is attached to the tarsus and has forty-five coarse teeth, an excellent instrument for rough work."
"She is giving her legs a good soap bath now. She draws them, you see, through her mandibles, or upper jaws. The mandibles are serrated, and they secrete a fluid that is quite like soap-suds, a superb toilet lotion which cleanses the skin and makes the hair brilliant and supple."
"Brushes, combs, toilet lotions, soap and sponges—nature has given them all to the little black ant!"—New Orleans Times-Democrat.

FLEET HIAWATHA.

A Cynical Critic's Cold Analysis of Longfellow's Description.
Determine how fast, asks Professor Greenhill, Hiawatha can run from the following data:
Strong of arm was Hiawatha.
He could shoot ten arrows upward,
And the tenth had left the bowstring
Ere the first to earth had fallen.
Swift of foot was Hiawatha.
He could shoot an arrow from him
And run forward with such swiftness
That the arrow fell behind him.
Neglecting the resistance of the air and granting that Hiawatha could shoot one arrow a second, the solution is as follows:
The time of flight of the arrows shot upward must have been nine seconds. Therefore the velocity with which they were shot, being equal to the time multiplied into half the value of the constant of gravity, was 144 feet a second.
Now, in shooting an arrow from him, Hiawatha, to obtain the farthest flight, would let fly at an angle of forty-five degrees, and by a simple trigonometrical calculation we therefore arrive at the fact that the horizontal velocity of the arrow would be rather less than 144 feet a second and would in fact be 102 feet a second, or seventy miles an hour. Hiawatha would therefore have to run faster than this. Could he do it on a sprint?
Again having recourse to calculation, we find that an arrow shot at 144 feet a second would fly 216 yards, or nearly a furlong. Hiawatha would run that distance in about seven seconds, so that he would be able to give the present holder of the record some 145 yards start.—London Post.

Nearly twenty-one million Roman Catholics live under the American flag.

NEW MODEL FOR ST. TOQUE.

In the drawing is shown a smart little model for street wear, the hat from which the sketch was taken being a white chip, with a black straw rim. The hat was tilted up on the left side and across the face. A bird in black, straw color and white being poised on this underbrim. Black velvet ribbon was used about the crown, with loops of the ribbon falling over the hair in the back.

GAMBLERS

WERE ARRESTED IN A POLICE
RAID LAST SATURDAY
NIGHT.

Doors of a Room in Handel Building
Were Forced and Paraphernalia
Confiscated.

Eight poker players and a wagon load of paraphernalia were the product of a police raid on the apartments of a young man who rooms at the Licking club in the Handel building on West Church street Saturday night about 11 o'clock.
The game had not been running a great length of time and the report was circulated that the gamblers had not been in the room more than 15 minutes when the operations were stopped by the police raid.
Chief Sheridan received a tip Saturday night that the game was running, but refuses to say where his information came from. The chief with Officer Burke went to the place and forced an entrance, placing all the men found in the room under arrest.
Officer Burke was left in charge of the prisoners while the chief ran around the corner to call the patrol wagon. During the absence of the chief, several of the eight players tried to escape by dodging out of windows and through mysterious doors, but only one man got away and he was found later and ordered to appear before the mayor.
In every case the players gave fictitious names, and in one or two cases names of other Newark people were given. The names appearing on the arrest records are as follows: C. E. Wilcox, Sylvester Chesterfield, Frank Ward, Harry Barnes, Boos Bowlings, Len Star, John Dold and John Rice. The last named succeeded in getting away but was found later by Chief Sheridan on an interurban car and ordered to appear before the mayor.
One by one on Sunday the defendants pleaded guilty and were fined \$5 and costs. Two of the men called the mayor by phone from the patrol wagon and paid the money over to Chief Sheridan.
The parties under arrest all denied that they were running the game and as the occupant of the room was not among those arrested, no one could be charged with being the proprietor of a gambling room.
The police were informed that the young man gave the key to his room

to a friend who invited the players into the place for a quiet game. It is said there were several well known gamblers in the party.
All the paraphernalia was taken to the patrol station where it will be destroyed.

EVERY RHEUMATIC INVITED TODAY

TO TEST URIC-O FREE?

75-Cent Bottle Given Free to All
Who Apply

If there are still any sufferers from Rheumatism in this county or wherever this paper reaches, that have not yet tried the wonderful Rheumatic Remedy URIC-O, we want them to try it now at our expense. We firmly believe there is no case of Rheumatism in the world that will not yield to the wonderful effects of URIC-O, and we want to prove it to every doubter beyond all possibility. The best way to do this is to give a large trial bottle of the remedy outright to every sufferer and let him test and try it to his own satisfaction. If you or any of your family suffer from Rheumatism, no matter what form, just cut his notice out of the paper and send it together with your name and address to the Smith Drug Co., Syracuse, N. Y., and they will send you by return mail a liberal trial package free of all expense. There is no reservation to this offer. You take the remedy home and use it according to directions until you are thoroughly satisfied of its merits. We could not afford to do this if we did not know that after you are freed from this dreaded disease that you will recommend it to all your friends who have rheumatism. We know from experience that personal recommendation is the most valuable advertising, and that is the way we intend to acquaint the world with URIC-O. Don't put off because this offer will soon close and then it will be too late. Put it today and start yourself upon the best way to perfect health and happiness. Send for URIC-O no matter where you live. It is sold by druggists all over this country, and if you want to have a bottle free, URIC-O is sold and personally recommended in Newark by Frank D. Hall, North Side Square.

DOG'S VOICE IS HEARD 100 MILES

Boston Bull Pup Joyfully Answers
the Voice of His Master Over
the Phone.

Winsted, Conn., March 11.—"Sport," an intelligent Boston bull pup owned by Dr. Charles F. Chandler, a Columbia University instructor, who has a summer home in New Hartford, held a conversation with his master and mistress over the telephone between New Hartford and New York City, a distance of one hundred miles, Saturday.
John Fox Smith, at whose home in New Hartford "Sport" is kept in the winter, and Dr. Chandler first conversed over the wire, after which the doctor asked how "Sport" was. "Sport" was placed so he could hear his master's voice and went into antics of joy, barking and whining.
Mrs. Chandler also spoke to the dog and he recognized her voice and barked hilariously.

TO-DAY'S MARKETS.

LIVE STOCK.

Chicago.

HUPP DEFEATS POOL EXPERT

NEW JERSEY CHAMPION CAME
OUT EIGHT BALLS BEHIND
NEWARK PLAYER.

Tournament or Pool Match May Be
Arranged With Zanesville and
Columbus Artists.
Newark's champion pool player, Joe Hupp, easily defeated the New Jersey champion, Charles Watson, in the tournament at the Music Hall opera house which run three nights, Thursday, Friday and Saturday. Hupp finished his six hundred balls Saturday night, making the necessary 220 while Watson scored 221 which gave him but 52. Therefore Hupp defeated the New Jersey man by 8 balls. The score for the three days was as follows:
Thursday, Hupp...200 Watson...171
Friday, Hupp...180 Watson...206
Saturday, Hupp...220 Watson...221

Total, Hupp...600 Watson...592
The game was exciting and the finish was close. Zanesville pool artists were present and want to match a two man team from that city against Hupp and Watson of Newark. Columbus also had a representative at the game and want to match a two man team or arrange for a two man tournament.
It is probable that terms for one of the matches or all of them can be arranged for some date in the near future.
This tournament is the finest thing of its kind ever held in the city and drew large audiences. Everything was square in the tournament and the sport was clean in every respect.

NORTH STREET ITEMS.

It begins to look as if the south end of our street has become alive in the gas business. The Ohio Fuel company hauled a rig on the farm of Mr. Wylie Tuesday of last week. The Central Ohio company is experiencing some trouble now in the E. L. Jones well No. 3, by losing their tools in the well.
The Everett company has another rig up on Mrs. E. J. Jones' farm and Central Ohio has one on Marion Brooks' farm, ready to begin work.
Mr. Ed Hobart, having sold his farm will soon move and his many friends hope to see him locate near this community.
John Brooks has rented Harry McGaughlin's farm and will move soon.
Mr. Able has moved from the Owen farm to Dell Ilse's farm on London street.
Clyde Foster has moved on the T. M. Brooks farm.
Mr. Will Ower and family visited Grandma Brooks of Cherry Valley on Tuesday.
The North street school under the supervision of Miss Blanche Hankinson, gave an interesting entertainment last Friday evening which was appreciated by all present. The proceeds were \$8.
John O. Jones and family of Newark, have been visiting relatives and friends in the neighborhood for a few days.
Heavy, impure blood makes a muddy, pimply complexion, headache, nausea, indigestion. Thin blood makes you weak, pale, sickly. Burdock Blood Purifiers makes the blood rich, red, pure—restores perfect health.

Don't forget to attend the BALD-
WIN PIANO SALE now on at the
KIRBY MILLINERY STORE, North
Fourth street, opposite M. E. church.
3-5-43t

Special meeting of the Retail
Clerks Monday night at 7:30, in base-
ment of court house. Business of im-
portance. Full attendance desired.
9-2 C. W. SWISHER, Secy.

Masonic Meeting.
A special convocation of Warren
Chapter No. 6, R. A. M., will be held
this evening at 7 o'clock for work in
Mark, Past and M. ex-M. degrees.

I. O. O. F. Notice.
Newark Lodge No. 623, I. O. O. F.,
want every Odd Fellow in Newark to
come to the hall tonight and see them
confer the second degree. There will
be a fine display. Come.

King's Daughters Meet.
The Silent Circle of King's Daugh-
ters and Sons will meet at the home
of Mrs. John Woolson, 92 North
Fourth street on Tuesday night,
March 12, at 7:30 o'clock.

Do You Need a Harness?
We have the celebrated Haffner's
and Sells Bros' harness, and they are
better this year than ever. Prices are
right and we can suit you. Come in
and see. Weiss and Phalen, 71 East
Main street. 3-11d Mth

Bed of Fine Sand.
In excavating for the new East
End fire department building, the
contractors have struck a fine bed of
building sand which amounts to quite
an item for somebody concerned in
the construction.

Has Made Improvements.
Mr. Charles Dean has made a num-
ber of attractive improvements about
his place of business, Stag Restau-
rant No. 1, on the South Side. Mr.
Dean has repainted and decorated the
interior of the rooms very attractively.

Little Damage Done.
An alarm of fire sent in about 8:55
o'clock Saturday night called the
Central and North End companies to
the residence occupied by Charles
Meyer, 74 Chestnut street, where a
small blaze had been started by the
blaze was quickly extinguished, how-
ever, with no damage.

Member Reinstated.
DeBia Hand, night operator at the
Western Union Telegraph company's
office, has been reinstated in the Al-
pha Pi fraternity after having been
out of the frat. for over a year. The
Alpha Pi fraternity here is at the
head of all other fraternities of the
same name in Ohio, having received a
state charter two years ago.

Men's League Meeting.
The Men's League of the First M.
E. church is anxious to have a good
attendance of men to hear Capt. E. S.
Wilson, editor of the Ohio State Jour-
nal, at the meeting Tuesday evening.
Mr. Wilson will have an elevating ad-
dress for the league and the members
are hoping to give their guests a first
class social evening. The contest for
membership is narrowing up as time
for the meeting approaches.

A. F. Cornell Resigns.
Mr. A. F. Cornell, the popular
membership secretary of the Y. M. C.
A. has tendered his resignation. The
association is very sorry to lose such
a valuable man. Mr. Cornell has re-
signed his position owing to ill health

and it is hoped that the rest will
greatly benefit him.

Two Women Fined.
Two colored women en route from
Zanesville to Columbus created a dis-
turbance on a B. & O. passenger train
after midnight Sunday morning and
were placed under arrest when the
train arrived in this city. Their of-
fense was the reckless use of pro-
fanity. Officer Dawson took the wo-
men to the station house. They were
fined Sunday afternoon and allowed
to go on their way to Columbus.

A Cute Musician.
Master Damon Stone Tedrick, who
won the first prize at the Orphium
last Friday night, made a big hit
singing "Sweet Bunch of Daisies."
Master Tedrick is scarcely five years
old, but did justice to many older
amateurs. In Saturday's Advocate
the name of another of the contest-
ants was given as winner of the first
prize. This was a mistake, as Mas-
ter Tedrick merited it and won. He
is the youngest child of Mr. and Mrs.
J. E. Tedrick Jr., of Harrison street.

Remarkable Relic.
Mr. David T. Cole, proprietor of a
second hand store on South Second
street, has in his possession a re-
markable relic in the shape of an old
flint-lock army pistol. The gun is
mostly of hand-shaped and carved
brass and bears the government
stamp. It came into Mr. Cole's pos-
session together with a part of its
history a short time ago. The relic
was brought to Virginia long before
the settlement of Jamestown, by the
great grandfather of Mr. Walter Lacy
of this city, and has seen many a
fight. The weapon looks meek, how-
ever, beside a modern army pistol of
about 45 caliber.

WE DO NOT USE HOT AIR OR
GOLD DUST—WHAT THEY SAY
ABOUT IT.

The carpets and rugs cleaned by
the McCormick Compressed Air Co.,
were not only satisfactory to myself,
but were found to have been perfectly
cleaned by several gentlemen, among
whom was a prominent carpet clean-
er. The work was pronounced super-
ior in every way and at a much less
cost than by the old process.
J. C. SCHINDEL.

THE SICK

Mrs. John Zipperer is quite sick at
her home corner of First and Railroad
streets.

Miss Ethel Fryman, who sprained
one of her ankles about two weeks ago,
has about recovered and was able to
attend to her work at the Wehrle
works today.

Mrs. C. L. Morrison, who has been
sick for some time at her home in the
North End, is convalescing.

Mr. Harley Wilson of the North End
is sick with rheumatism.

Mrs. A. C. Davis is quite sick at
her home on Western avenue.

Gas Rates Reduced.

Milwaukee, Wis., March 11. — The
Milwaukee Gaslight company an-
nounced a reduction of rates to an
80-cent basis. Hitherto illuminating
gas has been \$1 and fuel gas 80 cents
per thousand. When used in large
quantities the price for fuel gas will
be 60 cents.

Washington's Fourth of July Dinner.
The menus run very much the same
throughout the books (Washington's
accounts), but there is one page which
holds the attention in spite of its simi-
larity to the others. It is dated Thurs-
day, July 4, 1776. It shows what
Washington had for dinner on the very
first Independence day. The account
reads:

Leg of mutton 5s. 3d.
Loin of veal 5s. 3d.
Concocting piece of beef 6s. 6d.
Cabbage, beets and beans 5s. 6d.
Peas 2s.
Potatoes 2s.
Blackish and lobster 5s. 6d.

Capital Punishment.

"Mamma, did you love to flirt when
you were young?"
"I am afraid I did, dear."
"And were you ever punished for it,
mamma?"
"Cruelly, dear. I married your fa-
ther."—Rife.

LIVING BY MUSIC.

Advantage of Being Able to Play at
Least Two Instruments.

A member of a musical organization
who takes special pride in his skill as
a tuba player is also an accomplished
violinist.

"Every practical musician," he says,
"who expects to make his living at
the business ought to play at least two
instruments—one brass and the other
string. It often happens that a man
playing two instruments can secure an
engagement where he who plays
but one would be left unemployed dur-
ing part of the time. Traveling com-
panies who take their musicians along
often insist on their doubling up—that
is, playing brass in a street parade or
in front of the theater and a string in-
strument in the orchestra. In the good
old summer time the demand is for
brass. In the winter strings are in re-
quest, so at the change of season many
cornet and horn players put away their
brass instruments, take up their fiddles
and their bows and play at balls and
dances all the winter long.

"Besides this, there is another thing
to be considered. Every cornet and
horn player must look forward to the
time when his lip gives out. After
years of horn playing the overtaxed
muscles of the lips become relaxed.
They are strained from the constant
demands made upon them by holding
them in a certain position. Sometimes
a player retains his embouchure for
life, sometimes it gives out suddenly,
sometimes there is a gradual deteriora-
tion in strength of muscle and he finds
himself playing worse than he did be-
fore, and is compelled to realize the
fact that his lip is giving way. The
infirmity is a kind of paralysis of the
lip, somewhat resembling the scrier-
ner's cramp, which attacks the fingers
of the bookkeeper. The lips remain
otherwise in good order."—Cleveland
Plain Dealer.

SOME NEW YORK FIRSTS.

Christmas day first became a legal
holiday in 1654.

The first law proclaimed in New
York related to the Sabbath (1647).

The first surveyor was (1642) Andries
Hudde. He received a salary of £80 a
year (\$400).

The first official interpreter was
George Baxter, appointed in 1642 at a
salary of 250 guilders per annum.

The first court of justice was estab-
lished in 1647, presided over by Judge
Van Dineklagen, the first judge in
New York.

The first lot of ground sold was to
Anthony Van Foes in 1642. It was
30 feet front by 110 feet deep and was
sold for \$60. It was located where
Bridge street now is.

The first public house was built in
1642 at the company's expense. It was
a clumsy looking tavern, located at the
northeast corner of Pearl street and
County slip.—New York Herald.

An Alarm Clock For a Cent.

"I've got the best alarm clock in the
business, and Uncle Sam provides it
for me," said a West Philadelphia busi-
ness man of irregular hours yesterday.
"Two or three days of each week I
have to rise early. Our postman al-
ways rings our doorbell good and hard
when he leaves any mail. He comes
along regularly as clockwork at 8 a. m.,
but does not always leave mail for me,
and consequently the doorbell does not
always ring. When I want to get up
I just buy a post card in the afternoon
and mail it to myself. It has never
failed to arrive in the early mail, ac-
companied, of course, by the ringing of
the bell by the postman. Talk about a
cheap system. I can make the most im-
portant kind of an appointment for
the morning and fill it by the extra ex-
penditure of a single penny."—Phila-
delphia Record.

A Dilemma.

It is not always easy to sympathize
with fidelity, highly sensitive persons,
like the old lady on the train. She said
to the conductor as he punched her
ticket, "Conductor, is it a fact that the
locomotive is at the rear of the train?"
"Yes, madam," the conductor answer-
ed. "We have a locomotive at each
end. It takes one to push and one to
pull to get us up this grade." "Oh,
dear, what shall I do?" moaned the old
lady. "I'm always train sick if I ride
with my back to the locomotive."

ABOUT PEOPLE

Short Personal Items Gathered
During the Day.

Mrs. Cook of Weston is in the city
on business.

Mrs. Heibarger and little son Earl
have gone to Maryland to visit rela-
tives.

Mrs. Henry Voght, who was
taken suddenly ill Sunday, is reported
out of danger.

Mr. and Mrs. Owen Knapper of Col-
umbus have returned after a few
days visit in this city.

Miss Ida M. Ramsey of Newark is
the guest of her cousin, Mrs. J. F.
Hamilton in Delaware.

Mr. and Mrs. George W. Spencer of
Garrett, Ind., are in a to attend the
funeral of the B. F. Spencer.

Mr. and Mrs. A. J. Fleming enter-
tained on Sunday with a dinner for
Mr. Burke and Miss Harway.
Mrs. Maier of Ulica, who has been
visiting her son Frank of North
Fourth street, has returned home.

Sidney Livingston, a Newark busi-
ness man, was the guest of W. H.
Hardin Saturday.—Delaware Herald.

Mrs. E. J. Runyon and children have
returned to their home in Butler, after
several days visit with friends here.

Miss Maude Bentz and Mrs. Thomas
Gainer and son Joseph visited St.
Marys of the Springs, Columbus, Sun-
day.

Ellis Snyder of Delaware, who has
been bookkeeper for the American
Bottle company, of Newark, is visit-
ing friends in Mansfield.

Miss Jennie Jones, of 123 North
Fourth street, who for many years
taught in the Newark High school, is
seriously ill at her home.

Miss Lena Wood, who has been
sending the past two weeks with
friends and relatives in Mansfield, has
returned home, after having had a
pleasant visit.

Mrs. H. M. Bowers, formerly at
Myer & Lindorf's, has removed her
millinery store to 39 North Third
street, where she will be glad to see
her many friends.

Mr. and Mrs. W. H. Bader of West
Locust street were in Cambridge Fri-
day, being called there by the death
of Lillian Myer's, the three-year-old
daughter of Mr. and Mrs. The Myers.

Invitations have been issued by
Miss Ethel Griffith for a card party
to be given Monday evening in honor
of her cousin, Miss Grace Wheeler,
of this city, who has been visiting in
Mansfield for the past several days.

Rev. Lester S. Boyce of Findlay, O.,
will come to Newark tonight to con-
duct the services at the funeral of
B. F. Spencer on Tuesday at 10 a.
m. While in the city Mr. Boyce will
be the guest of Mr. and Mrs. H.
Spencer.

Mr. F. C. Christoffersen, a well
known clerk in the Douce drug store,
West Main street, left this city for
Chicago Saturday evening at 8 p. m.
Mr. Christoffersen has accepted a position
in the William S. Hale pharmacy, 101
Madison street, Chicago, and will
begin his duties there.

THE BOYS SUNDAY CLUB.

Rev. Grant Jones made a very in-
teresting talk on "The Boys of the
World" to a very large audience of
the world, showing the route taken to
and from Bombay. His illustrations
were beautiful and very interesting.
The boys paid the strictest at-
tention, but gave way to their feel-
ings when Mr. Jones finished his lec-
ture by bursting forth in a loud
round of applause.

The music was furnished by Mrs.
Shuman, Mrs. Ludwig and Mrs. Shu-
man.

Mr. L. Russell will talk to the club
next Sunday. His subject will be "A
Trip to England."

NOT NEWARK, BUT HOLBEINS.

"Papa, is this Newark?" asked the
shrill voice of a small boy on an in-
terurban limited car the other day.
The car had stopped at Holbein,
switch where it was to pass another
car. The only evidences of a city
that could be seen from the car win-
dows was a little "two by four" stand
at the side of the track and a sheep
sied over on the side hill.

Naturally, the passengers smiled.
Most of them were from Zanesville.
The little fellow's father explained
that although the neighboring land-
scape very much resembled Newark,
it was in fact a locality of a different
name.

The boy insisted that when they got
on the car the conductor had paid the
first stop would be Newark, where-
upon some one remarked that, not to
be misunderstood, one must use exact
language when talking in the presence
of children.—Zanesville Signal.

Mr. How a child will show the
bringing up! Well, it's alright, the
poor kid probably never saw a city
before and being used to such sur-
roundings as Holbeins, naturally
judged a city by its home village.

Theodore Gill, the world's greatest
authority on fish, works for the
United States government for \$1 a
month.

WHAT ARE
YOUR
WANTS?

Did you ever stop to think how
easily they may be supplied? Do
you spend hours trying to think how
you may get your wants supplied?
Do you spend valuable time hunting
for a house, rooms, or a servant?

Why not let a little want ad. help
you? It won't cost much. And so
much valuable time saved. You'll
be surprised how they will help you.
Don't worry, don't wait—do it now.

Insert a little want ad. in THE
ADVOCATE and it will do the rest.

THREE lines, THREE times, 25c.

The Rise of Jimmie Johnson.

V.—SUPERINTENDENT JOHNSON.

Johnson WANTED something better; therefore, being wise,
Hesitated not at all his WANTS to ADVERTISE;
Found a place as Superintendent, managing the "biz."
He was Mister Johnson now, which shows that he had "riz."

While the family of Henry Martin
of East Fourteenth street, New York,
was absent at a theater, burglars
broke into the house and stole a beat-
ing stove weighing 600 pounds.

New South Wales has decided to
assist British immigration, so that
and domestic servant or agricultural la-
borer desiring to go to that country
can make the 12,000 mile voyage to
Sydney at a cost of \$30 to \$40.

Flame and Wire Gauge.
To Sir Humphry Davy belongs the
credit of discovering that the flame of
burning gas will not pass through wire
gauze having 74 meshes to the square
inch. This condition may be tested by
bringing a flame in contact with simi-
lar gauze, when it will be found that
the flame will not go through the
meshes. This is owing to the cooling
action of the wire, which tends to re-
duce the temperature of the flame be-
low the ignition point, the unburned gas
passing harmlessly through. Of course
if the gauze becomes overheated the
flame is able to get through.

A CUP OF GOOD COFFEE LIKE MOTHER USED TO MAKE

"Fresh Roasted Coffee?—bah!
Mother didn't use fresh roasted coffee,
she had Arbuckles."

The way to get a good cup of coffee that
tastes like Coffee with all the delicious flavor
and aroma intact, is to buy a package of the
old original Arbuckles' ARIOSA Coffee, and
grind it as you want to use it, first warming it a little to
develop the flavor and make the grinding easy. Coffee
loses its identity as Coffee after being ground or exposed to
the air and is easily contaminated by handling.

Arbuckles' was the first roasted pack-
aged coffee.

The pores of each coffee berry are sealed
after roasting with fresh eggs and granulated
sugar to hold the goodness in and make the
coffee settle clear and quickly; an actual applica-
tion by machinery of "Mother's" methods—
as patented by this firm.

Sold only in packages, sealed for the consumer's protection, containing one pound
full weight. Sales for 37 years exceed the combined sales of all the other packaged
coffee. The best coffee for you to drink, and saves your money besides.
Same old firm, same old coffee. If your dealer won't supply, write to
ARBUCKLE BROS., New York City.

March 10 In History.

1872—Giuseppe (Joseph) Mazzini, Italian revolutionary, died at Pisa; born 1805. Mazzini studied law and early devoted himself to plans for the liberation of Italy from the despotism of Austria and petty tyrants. He joined the Carbonari and, being proscribed, resided at Marseille and London. He soon became the recognized head of the Young Italy movement.
1836—George Muller, English philanthropist, died in London; born 1805.
1860—Russian torpedo boats made a sortie at Port Arthur, sinking a Japanese ship and losing a destroyer.
1896—Eugene Richter, radical leader of the German parliament, long an opponent of Bismarck, and one of Germany's most noted political editors, died in Berlin; born 1838.

March 11 In History.

1544—Torquato Tasso, Italian poet, born; died 1586.
1731—Robert Treat Paine, "Signer," born in Boston; died there 1814.
1802—Harriet Crowley, English dramatic writer, died.
1820—Benjamin West, American painter, died in London; born in Gen. Rosecrans Pennsylvania 1795.
1874—Charles Sumner, statesman, died in Washington city; born in Boston 1811.
1883—Alexander Mikhailovitch Gortchakov, Russian prince and statesman, died; born 1788.
1888—General William Starke Rosecrans, a noted soldier of the western army, died at Los Angeles; born 1821.
1906—Mine explosion at Pas de Calais, France, caused the death of over 1,000 miners.

THIS AND THAT

Cleveland gossip has it that Dan Hanna, who is to be divorced from his divorced second wife, is to be married to a divorced third wife. One more experience will undoubtedly convince poor Dan that his original first wife, the girl sweetheart of his youth, was far the best of all.

John Alexander Dowie's pictures were about the most conspicuous features of the Sunday papers yesterday. They did full service in impressing the American public that John Alexander was quite sufficiently dead.

A scientist is out with a serious denial that the end of the world will come this month. Now, what's the name of the joking prophet who predicted it would?

John Alexander Dowie promises his followers that he will return to earth in a thousand years. This will afford plenty of time for the arrangement of all the necessary details for his reception.

Don't begin yet to be getting poetic about gentle Spring. Old grim winter always lingers in her lap till after March 20.

Thaw's lawyers announced on Friday that the defense would rest. But there is no rest yet for the weary public.

The Mormons met Senator Reed Smoot on his return home with a brass band. They certainly had reason to feel hilarious over the way they had finally been vindicated in the august Senate.

Newark promises to become one of the great traction railway centers of this part of the state.

Some of the wisecracks insist that the wheat is not so seriously damaged as has been reported.

Coming time for the wearing of the green.

Newark for Newark would be a good slogan to stimulate town pride and town trade.

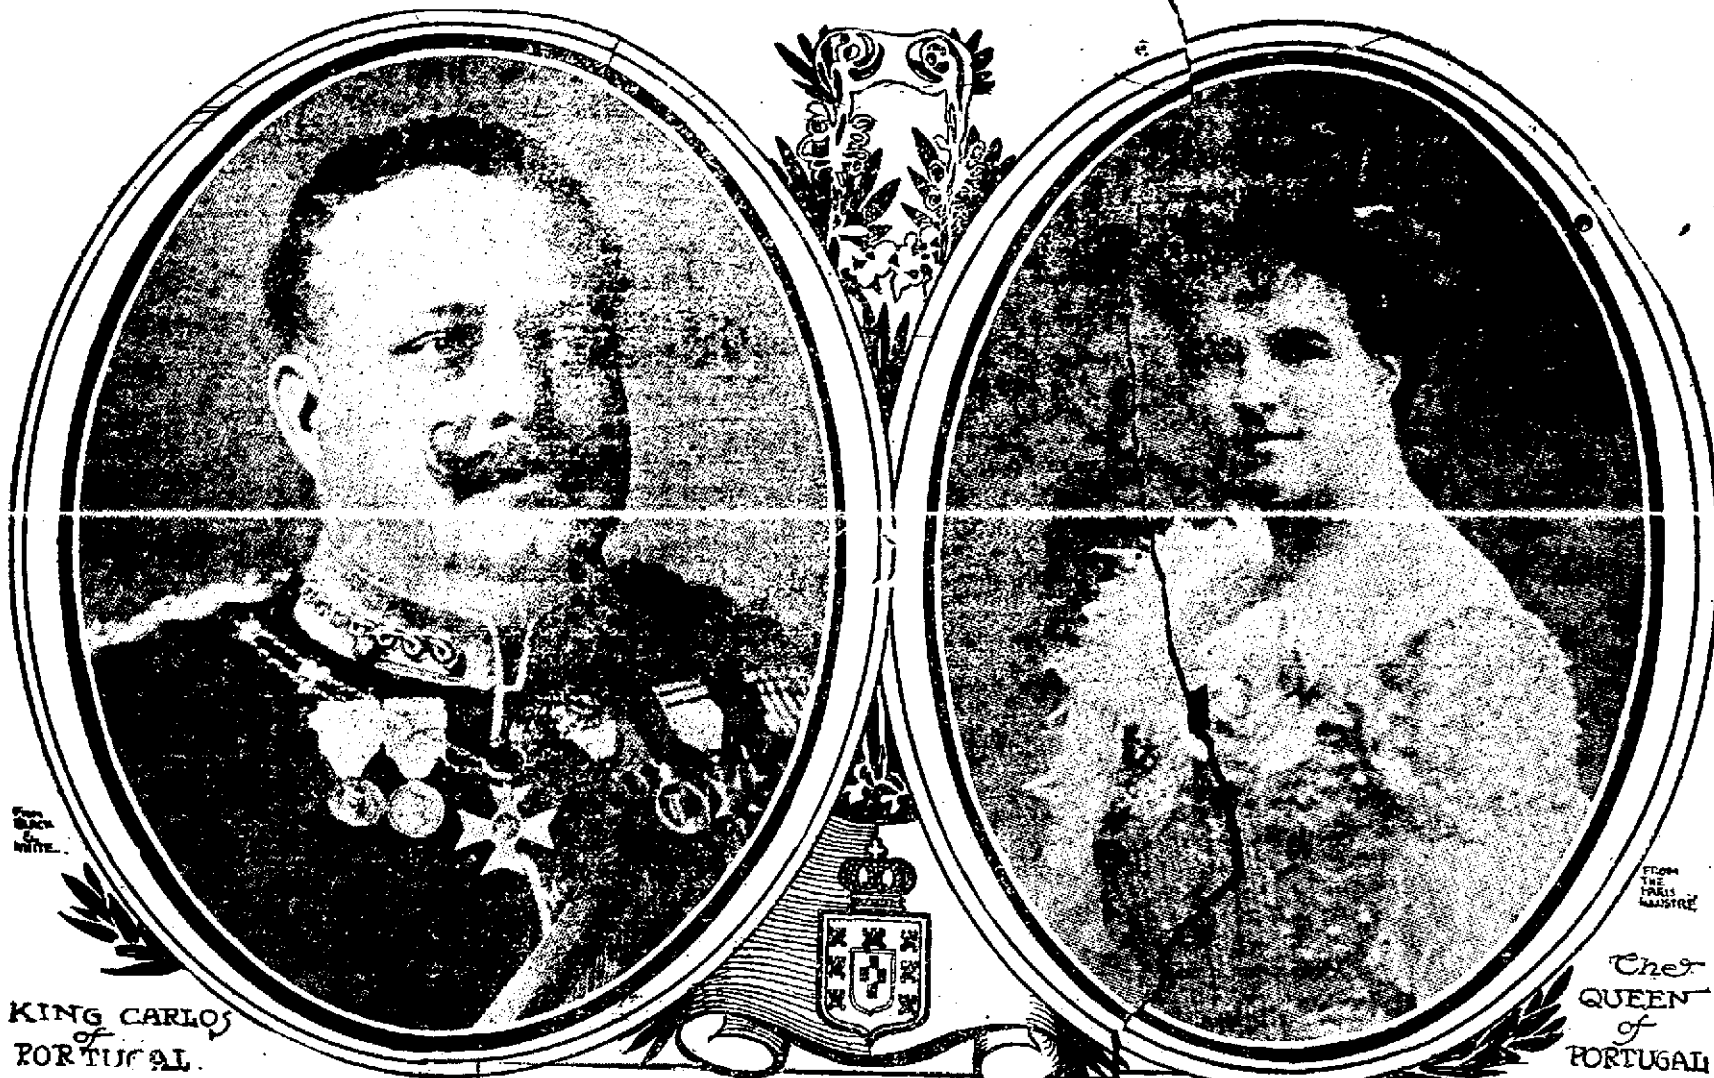

A pin that entered the waist of a Pataskala young lady some five years ago, has lately been extracted from the arm of a young man residing near Etna. This is a case that has no equal in medical jurisprudence.—Pataskala Standard.

At Bellefontaine, O., Charles Stickney, 26, pricked his finger with a pin and died of blood poisoning.

Bad Blood

Is responsible for most of the diseases and ailments that afflict humanity. To rid yourself of it take Wood's Sarsaparilla.

JUNIOR GIRLS AGAINST SENIORS

In First Scheduled Basketball Game
of the Season at the Armory
Tonight.

Tonight is the night when the first scheduled basketball game between the junior and senior girls of the high school, will be played at the East Main street armory. The game will be called at 8 o'clock sharp and there is every indication that there will be a large attendance. The two teams will line up as follows:

Seniors—Miss Henthorn rf; Miss Jones lf; Miss Woodward c; Miss Nichols rg; Miss Beecher lg.
Juniors—Miss Dence, rf; Miss Hall lf; Miss Vale c; Miss Miller rg; Miss Norpell lg.

Mr. Lee Moore of Denison, a former high school pupil, will referee the game.

TO MAKE HOME BEAUTIFUL.

To every woman home is the dearest place on earth and it is her life's ambition and her constant endeavor to make it most beautiful. Man may grumble and continue to take his dinner down town during house-cleaning time, but were he to acknowledge the real truth, when his wife's spring and fall campaigns are over he is as proud of the result as herself, much as he dreads the muss and the work attendant on those seasons.

Housekeepers at such times, or at all times, will find in SPARTAN VARNISH STAINS one of the greatest agents to assist in the beautifying process. SPARTAN VARNISH STAINS are the most practical Varnish Stains made and will be found superior to any other preparation sold for finishing or retouching interior woodwork or old furniture. The best thing about the Spartan Stains is that they are honestly made, of the best materials, and can be worked very easily. Most of these preparations work hard; are too stiff, do not brush well from the brush smoothly and easily; cover the surface evenly, and will be found to give better results than can be obtained with other stains. SPARTAN VARNISH STAINS are high grade goods but cost no more than the cheap kinds. Made in the following shades:

Light Oak, Bright Cherry, Mahogany, Dark Oak, Dark Cherry, Rosewood, Golden Oak, Walnut, Natural. Any lady who will give Spartan Varnish Stains a single trial will at once convince herself of their value and the truth of our claims. If you have a vestibule door that looks rusty or scuffed; if there is an old table, a bedstead, a chair, or any other piece of furniture from which age and wear have removed the finish, you can make it look like new again with one or two coats of Spartan Stain. These stains are not intended for outdoor work. Sold by Newark Paint Co., 31 West Church street, only exclusive paint store in Southeastern Ohio.

SPARTAN WHITE LEAD is absolutely the best and most practical White Lead made. Best for the painter and best for the property owner. Manufactured by THE MARQUETTA PAINT & COLOR CO., Marquette, O.

Japanese Want Vessels.

San Francisco, March 11.—Agents of a large Japanese steamship company, reported to be the Shoshin Katsusha of Osaka, are trying to negotiate the purchase of three liners of the Oceanic Steamship company, the Ventura, the Sonoma and the Sierra, which are now for sale. The Japanese are believed to wish the Oceanic steamers for the purpose of establishing another transpacific line between San Francisco and the orient, which may be affiliated with the Western Pacific railroad.

KING FREDERICK
AUGUSTUS OF SAXONY

New York, March 11.—King Frederick Augustus of Saxony is now in Lisbon, entertained by King Carlos of Portugal. He embarked on March 10 on the Hamburg South American steamship Cap Ortel for Lisbon and arrived there on Thursday.

A rear of artillery announced the approach of the steamship and the King of Portugal went out in a gorgeous barge of state to meet the royal visitor. Brilliant reception ceremonies were held in White Horse square.

It has been stated that King Frederick Augustus is understood to be in connection with negotiations looking to the marriage of the Crown Prince of Portugal, the Duke of Braganza, with a princess of Saxony. King Frederick also intends to meet King Alfonso and King Edward in Biarritz.

Both Suffocated.
Huntington, W. Va., March 11.—William A. Thompson, a contractor of Naugatuck, W. Va., and J. R. Clarke, a carpenter of the same place, were found suffocated in a room at the Elmwood hotel here. It appears that the men had turned on the fuel gas full force when they retired. When the door was opened the heat was intense.

LETTER PUBLISHED BY REQUEST
OF WELL KNOWN DRUG-
GIST FRANK D. HALL.

To the Editor: Believing that the people of Newark will be interested in cases by such a simple remedy, we ask you to publish the following for the good it may do others.

Mr. Thomas G. Wallace of Detroit, Mich., writes: "After having suffered with a severe stomach trouble for years and trying medicines and doctors without any benefit whatever, I commenced to take Vinol, and I am pleased to state that it has entirely cured me, given me a hearty appetite, and I am stronger and in better health than I have been for years."

Mr. Frank D. Hall, our local druggist, in referring to Vinol said: "You see Vinol contains all of the healing and strength creating elements of cod liver oil, but without a drop of the useless oil to upset the stomach and retard its work, and tonic iron added. 'Very few people who suffer with stomach trouble can take other forms of cod liver oil and emulsions or sickening drugs, but Vinol strengthens and tones up the weakened nerves of the digestive organs and enables the sufferer to digest with ease the very foods that once caused distress. 'We ask every person in Newark suffering from stomach trouble to try Vinol on our guarantee.' Frank D. Hall, Druggist."

Note.—While we are sole agents for Vinol in Newark, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

Sweet and Elijah Bailey, brothers, and Tracker Rice, were killed in a desperate fight in a boat when crossing the Middle fork of the Kentucky river below Sargent, Ky.

ONE ROOF COVERS A HUNDRED FINE HOMES

Apthorp Apartments, Covering Whole
City Block, Particularly Well
Protected Against Fire.

New York, March 11.—One hundred commodious homes under one roof—this will be the unique feature of a massive structure almost completed by Mr. William Waldorf Astor, on the upper west side of this city. The building, which is known as the Apthorp apartments, will be the largest of its kind ever erected.

Covering an entire block with a ground area of 49,000 square feet—more than an acre—and with a height of 13 stories, the Apthorp apartments will be larger than the St. Regis Hotel or the 26 story Hotel Belmont, each of which has a ground area of 20,000 square feet. Its total floor area will be 11 1/2 acres, equaling the 32 story City Investing Building, which is expected to be the largest skyscraper office building in the world. This space would provide standing room for 300,000 persons.

In size and ground area the Apthorp apartments will not only rival the big skyscrapers in the financial district, but they will be of the same type of construction which makes these big structures the safest and most enduring to be found in any city in the world. Following the plan of making all the buildings with which the Astor estates are being developed models of unburnable construction, Mr. Astor has directed that every precaution shall be taken to insure that the new apartments shall be absolutely fireproof.

Every known device for the prevention and extinguishing of fire will be utilized. The steel work will be surrounded by terra cotta hollow tile blocks, and the floors, partitions and ceilings will be of porous terra cotta. So thoroughly has the scheme of fireproofing been prepared that nearly 1,500,000 square feet of tile will be used in various parts of the building. The terra cotta partitions alone, if placed in line, would reach nine miles.

Thousands of tons of steel, valued at half a million dollars, will go into the structural framework. The steel columns and beams for the floors, if placed end to end, would reach 25 miles. The total amount of steel to be used throughout would be sufficient to provide rails for 13 miles of railroad track. If made into telegraph wires it would stretch 50,000 miles—twice around the globe.

When finished, this mammoth apartment house will be the most striking structure on the upper west side. It will cover the entire block bounded by Broadway, West avenue and 78th street—248 feet east and west, and 198 feet north and south. The location is right in the heart of one of the city, overlooking Riverside Drive and the Hudson river.

After Promoters of Clerks' Union.
San Francisco, March 11.—Hugh M. Shaugh, a postal clerk, whose run is between Los Angeles and El Paso, was notified by Division Superintendent Stephens of the railway mail service that he would be given three days to show cause why he should not be suspended. Shaugh was an active promoter of the Brotherhood of Railway Postal Clerks and induced many of the men of the local department to join the order. His conduct is declared by his superiors to be prejudicial to the discipline of the service.

Because congress failed to pass the ship subsidy bill, Oceanic Steamship company notified the government that it purposes to withdraw from the United States-Australian service the vessels now running on that line.

Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs. Many thousands of women have realized this too late to save their health, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study.

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, nervousness, irregularities or the "blues," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs. It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and all Organic Diseases, and is invaluable in the Change of Life. It dissolves and Expels Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, and invigorates the whole female system. It is an excellent remedy for derangements of the Kidneys in either sex.

BLADENSBURG.

David Melick of Indiana is the guest of relatives here.

John Boggs of Newark was in this place Saturday.

Miss Ola McCament of Utica is the guest of her parents, Mr. and Mrs. B. F. McCament.

Stephen Underwood spent Friday and Saturday with Dr. and Mrs. N. Hull.

Mr. and Mrs. John Cessna entertained Mr. and Mrs. John VanWinkle and daughter, Calla, and Mr. and Mrs. Charles Pigman, Wednesday evening.

Mr. and Mrs. Wylie Beckholt of Morgan Center, spent Sunday with relatives here.

Stops itching instantly. Cures piles, eczema, salt rheum, tetter, itch, hives, herpes, scabies—Doan's Ointment. At any drug store.

CLAY LICK.

The stork visited the home of Mr. and Mrs. John Bradley Thursday and left a nine pound girl.

Pneumonia and grip are quite prevalent here.

A large quantity of baled hay is being shipped from here by Mr. W. H. Hughes.

A number of our public spirited people have rented the Wickam barn at the interurban station and made it free to all having occasion to use a barn at that point. This barn, owned by Hon. Phil Wickham, was used by canal boatmen in ante bellum days long ere the whistle of the locomotive was heard in this section. It is one of the famous old landmarks of eastern Licking county.

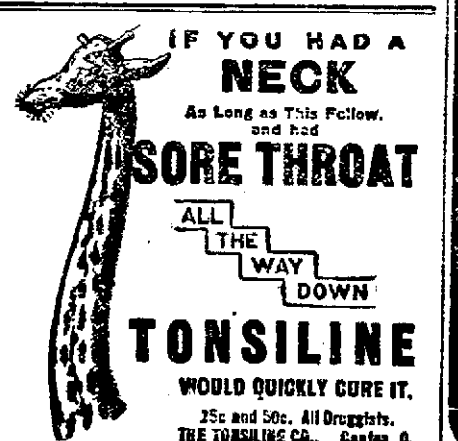

Col. Daniel Roderick, hero of many hard fought battles is seriously ill at his home near here. Many another and the writer hope for his ultimate recovery.

Prof. P. W. Fulke, of Newark, was the pleasant guest Thursday evening of Mr. and Mrs. Mac Mossman.

"Dr. Thomas' Electric Oil is the best remedy for that often fatal disease—croup. Has been used with success in our family for eight years."—Mrs. L. Whiteacre, Buffalo, N. Y.

Heavy Snowfall in East.

Philadelphia, March 11.—A heavy snowstorm, which seems to have centered along the New Jersey coast and eastern Pennsylvania, visited this section. Snow fell continuously for 15 hours, to a depth of seven inches. Reports from Atlantic City show that the fall of snow there was nine inches. The storm was accompanied by high wind, which caused drifting, and traffic on the railroads, particularly in mountainous sections, was retarded.

AMUSEMENTS

TWO MERRY TRAMPS.

Many pleasing things have been said during the past season by the critics, not only in the larger cities, but in the smaller ones as well, and where Wood & Ward's production of the "Two Merry Tramps" has been presented the press comments have been most flattering. It is a musical comedy in three acts. The title of the play is somewhat misleading and is only the title, as from the rise of the curtain on the first act to the finale it is just one of the cleanest, jolliest and liveliest of comedies that has enlivened the musical farce comedy world. Never for an instant does it bring a blush—but instead creates laughter that is irrefragable. This attraction will appear at the Auditorium Tuesday, March 12.

HEIR TO THE HOORAH.

Manager Matthews didn't take any chances when he arranged to bring back "The Heir to Hoorah" as the attraction for Newark at the Auditorium Thursday, March 14. That superlatively entertaining comedy by Paul Armstrong, staged by the late Kith LaShelle, had adequate "try-out" last season during its engagement, which proved too short to satisfy the ambition of all judicious theatergoers to laugh at its whimsicalities. "The Heir to the Hoorah" made good in the autumn season, and it is just the type of a laughter-inducing comedy vehicle of farcical tendencies to suit the fugacious fancy of the midwinter clientele. No play of American authorship which has been recently in Newark appealed more honestly and more directly to the favor of the great majority of playgoers. It has fun and pathos, epigram and sentiment, blended in that ingenious proportion which goes to make the true comedy the play that appeals no less to one's sense of humor than to one's sense of sympathy.

Guy Bates Post an actor who does credit to his native west, will again be seen as Joe Lacy, and Ernest Lamson, Ben Higgins, Cassius Quinby, Ralph Dean and many of the clever people of last season's cast will be seen in their congenial roles. Important to the cast are Janet Beecher, Helene Lackaye and Gertrude Dalton.

Big dance, given by Marsh's Military Band, next Wednesday evening at Assembly Hall. Band and orchestra of fifteen men. Ladies free. 9-3t.

The Advocate Book Bindery will supply you with blank books for 1907.

Actresses Who Were Seen In New Roles Recently.

New York, March 11—Another card was played in the special matinee game on Thursday. It came from the George Bernard Shaw pack, was his comedy in three acts, entitled "Widowers' Houses," and was produced in the Herald Square Theater.

MISS EFFIE SHANNON IN
"WIDOWERS' HOUSES"

With Mr. Herbert Kelsey, Miss Effie Shannon, Mr. Ferdinand Gottschalk, Mr. Henry Kolker and Mr. William F. Hawtrey. "Widowers' Houses" as a card in the game may not spell triumphs from the Broadway point of view, but it kept a fair sized audience rippling with laughter most of the time.

Cincinnati, O., March 11—For two acts Miss Grace George and her finely

MISS GRACE GEORGE IN
"DIVORCE"

balanced company gave a delightful performance of Miss Margaret Mayo's

adaptation of Victorien Sardou's brilliant comedy, "Divorçons," Thursday afternoon, before a good sized audience in the Grand Opera house.

Miss George's portrayal of Cyprienne again established the fact that she is a comedienne of finely developed technique and individuality.

JOSEPHINE COHAN A FEATURE.

New York, March 11—The bill of the Union Square Theater this week is made doubly interesting to New York vaudeville patrons by the an-

MISS JOSEPHINE COHAN

nouncement that Josephine Cohan will appear there in a farce called "A Friend of the Family." Miss Cohan is genuinely well liked here.

AT THE ORPHIUM

Manager Leason, of the Orphium theater, announces a strong bill for the week commencing today. The first feature on the program is the O'Brien troupe of acrobats, who come to this circuit of vaudeville houses highly recommended. Louise Arnold and her company will entertain with a funny little sketch entitled "Raggy's Luck." Tom Powell will do a black face comedy turn, and Nellie Rayfield, the "Little Patti," will sing some of her latest songs. Miss Place has a new illustrated song, to which this favorite singer will do her usual justice. Mr. Eldon has received a thousand foot film of new life motion pictures on a good subject, which will be shown immediately before the close of each performance. Altogether the Orphium has a very strong drawing card for this week.

Big dance, given by Marsh's Military Band, next Wednesday evening at Assembly Hall. Band and orchestra of fifteen men. Ladies free. 9-3t.

Fortune Ranges at Keller's. 1t

DR. B. F. SPENCER DIED ON SUNDAY

OLDEST PHYSICIAN PEACEFULLY PASSED AWAY AT FOURTH STREET HOME.

Rev. Lester S. Boyce of Findlay Will Conduct Funeral Service Here Tuesday Morning.

Dr. B. F. Spencer, the oldest practitioner of medicine in Licking county, died peacefully at his late home, 161 North Fourth street, Sunday morning, March 10, at 10:30 o'clock. The remains will be laid to rest in Cedar Hill cemetery, Tuesday morning at half after ten, the Rev. Lester S. Boyce of Findlay, Ohio, recent pastor of Newark's First Presbyterian church, conducting the service at the Spencer residence.

Dr. Spencer suffered from no organic disorder. He passed away after his energy had been exhausted. The doctor's vitality had waned in recent months and a week before his death he was seized with an exhaustion that proved too much for the then frail body. For three days prior to dissolution, he rested quietly, and on Sunday morning the life spark went out. It was just such an end as the doctor, who in a long and busy life had witnessed suffering in every form, had hoped for.

Dr. Spencer was in his 87th year, having been born near Somerset, Perry county, Ohio, on October 11, 1820. At an early age he began the study of medicine and surgery with Dr. Harvey, a celebrated English physician of that time, and this study was supplemented later by courses of lectures at the Cincinnati Medical college, from which he was graduated. After practicing medicine in Gratiot and Brownsville for many years, Dr. Spencer came with his family to Newark, purchasing the Dr. McCrum property on North Fourth street, where he has lived for the past 35 years. Here the doctor practiced his profession without interruption during all these years up to 1903, when physical infirmity, due to advancing years, caused him to abandon the work which he loved and in which he had succeeded.

Dr. Spencer was a physician of the 'old school'; was ever at the service of a large circle of friends and patients, and fellow practitioners of his time said that he was never known to refuse to respond to a call even though he knew that his compensation would be merely an expression of thanks.

Dr. Spencer was a Mason and during his residence in Brownsville was Master of Jackson lodge.

Besides the widow there remain the following children: William R. Spencer, Mrs. Samuel Bell and Mrs. Mary Green, all now living at Hancock, Ia.; Miss Emma Spencer, Mrs. John W. Thompson and C. H. Spencer all of this city. A sister, Mrs. Dinah Witham, resides at Kouts, Ind., and one brother, Robert, is living in Winfield, Kas.

Dr. Spencer was married twice, his first wife dying in 1848. He was married again at Zanesville, O., in July, 1852, and Mrs. Spencer, who has been his faithful helpmate for 55 years, survives him.

Few people in Licking county had a wider acquaintance among the older residents of the community. The doctor's unselfish life won for him many devoted friends who while sympathizing with the family, will nevertheless recognize that Dr. Spencer has lived far beyond the span ordinarily allotted to man, and will instead of speaking vain regrets, be ready and willing to say, "Well done, good and faithful!"

After the funeral service Tuesday morning at 10:30, the burial at Cedar Hill will be private.

Big dance, given by Marsh's Military Band, next Wednesday evening at Assembly Hall. Band and orchestra of fifteen men. Ladies free. 9-3t.

O'DELL GARRISON WANTS NEW TRIAL

MOTION FILED IN THE PROBATE COURT TO SET ASIDE JURY'S VERDICT.

Licking County Case Before State Railroad Commission—Interesting Court News

Smythe & Smythe, as attorneys for Blanch M. Walters filed a petition today in the Probate court praying for divorce from Harry D. Walters, and custody and control of infant child, and also for an injunction against the defendant from going to plaintiff's house and in any manner interfering with her. Plaintiff alleges that she is afraid defendant will do her bodily injury as he has frequently assaulted her, and that he is a habitual drunkard. An injunction was allowed by the court against the defendant as prayed for in her petition.

Smythe & Smythe on behalf of Dr. Ashley are engaged today in a trial before the Ohio Railroad Commission at Columbus against the Sandusky, Norwalk and Mansfield Electric railroad company in which the complainant charges the railway company with unlawful discrimination against him and other in refusing and neglecting to stop its cars at a certain platform for the purpose of receiving passengers and for charging excessive fares.

On behalf of Emily Hampshire, Smythe & Smythe as attorneys for her, have filed a creditor's bill in the Common Pleas court against Oliver Hampshire and The Pratt-Kirk company, to enforce the collection of a certain judgment which she holds against Oliver Hampshire.

Arguments are being made today in the Common Pleas court by F. V. Owens of Mt. Vernon and Mr. Reed and Mr. Pomeroy, and Mr. Fitzgibbon in the case of Mary Lane vs. The Columbus, Newark and Zanesville Railway company.

O'Dell Garrison by his attorneys, Smythe and Hunter, has filed a motion in Probate court to set aside the verdict of the jury in the case of Ohio vs. Garrison. Various grounds are alleged as cause for a new trial, among them that the verdict was not sustained by sufficient evidence and is against the weight of the evidence, and that the court admitted improper matters to go to the jury as evidence and refused to give in charge to the jury proper propositions of law, and discharged several persons who had been impaneled as jurors without cause.

Case Was Continued

Clifford Pravel, a young man residing just over the Licking county line in Delaware county, was arrested on a warrant sworn out by Miss Nellie Hammond on a paternity charge. It will be remembered that on March 3 Miss Nellie Hammond, a servant girl living at the home of Mr. Isaac Blamer, gave birth to a child, and it is said she left it in the yard to die. Mr. Blamer it is said, found the child alive and taking it into the house cared for it, and it is still living. Saturday Pravel was taken before Squire James J. Hill and the case was continued until Monday, March 18.

Patrol System in Operation.

The police operators are on duty Miss Katharine Stapleman was the first girl on duty Monday. Miss Stapleman will take the first trick from 6 a. m. to 2 p. m. She will be followed by Miss Della Kreager from 2 to 10 p. m., and Miss Ethel Buckingham from 10 p. m. to 6 a. m. Under this arrangement, each girl will be on duty 8 hours and have 16 hours off duty. All the officers will report tonight. A part of the boxes were in working order last night and some of the officers made their reports. The system will be working smoothly before the end of the week.

Probate Court Items.

The will of Joel W. Hansberger, deceased, has been admitted to probate and Mrs. Orphie Hansberger has been appointed executrix and trustee. The will of Elizabeth Daugherty, deceased, has been presented for probate.

The hearing of the probating of the will of Mrs. Margaret Herald, deceased, has been continued.

Real Estate Transfers.

CUP FOR OCEAN MOTOR BOAT RACE.

New York, March 11.—A few days ago the joint committee of the Motor Boat Club of America and the Royal Bermuda Yacht club, of which Mr. Thomas Fleming Day is chairman, met in this city, and selected the design for the \$1,000 cup presented by a member of the New York Yacht club for the motor boat race to Bermuda.

Ten designs from several of the

foremost silversmiths in the country were submitted, and the choice of the committee was one of three shown by the Banks & Biddle company, of Philadelphia. The cup is now in hand and will be finished at an early day. It will be of massive sterling silver, about three feet in height, on an ebony base. At the base of the cup will be the words "The Bermuda Cup."

STATE GAME WARDEN GIVES INSTRUCTIONS

State Game Warden J. Porterfield has issued a lengthy letter to the deputy game wardens throughout the state. He warns them that persons must not be induced to violate the law for the sake of the warden's securing the fines and cautions warden against filing affidavits unless they are prepared to prove the guilt of the person so accused beyond the shadow of a doubt.

Boys under 17 should be taken to their parents, says the chief game warden, and admonished against violating the fish and game laws, or taken before a juvenile judge. "Wardens who solicit authority to prosecute persons hunting without a written permit will be discharged."

Sections of the law were pointed out relating to the possession of birds by milliners, Sunday hunting, open season for rabbits, sale of game and hunting without written permit. Either the owner of lands or his agent must file affidavits against persons hunting without written permit, or must authorize the warden to do so, and the authority must be shown in writing.

Other parts of the letter give information as to the method by which persons can be appointed game wardens.

To Attack Jockey Club's Charter. Little Rock, Ark., March 11.—The charter of the Oaklawn Jockey club at Hot Springs probably will be attacked in the legislature. This is the last civil action upon which relief is hoped for by the element in Hot Springs which desires to see the provisions of the Amis anti-pool-selling bill rigidly enforced. If the charter should be revoked Attorney General Kirby will be asked to take the matter immediately into the courts and ask for a receiver to take charge of the property of the nonresident corporation. If this action is not taken it is possible that the legislature may be asked to order a company of militia to Hot Springs to enforce the law, although there is a disposition to resort to this only as an extreme measure.

SCROFULA A FAMILY BLOOD TAIN

Scrofula is not a disease that is acquired, under ordinary circumstances. It is a deep-seated family blood taint, handed down from generation to generation, blighting the lives and sapping the vital forces of innocent persons who have inherited this legacy of disease. Parents who are blood relations or who have a consumptive tendency, or blood disease of any character, are sure to transmit it to their offspring, and it usually takes the form of Scrofula. Swollen glands, brittle bones, weak eyes, sores and eruptions on the body, Catarrh, and other deformities with hip disease, are the principal ways in which the trouble is manifested. In some cases the blood is so filled with scrofulous germs and poisons that from birth the sufferer is an object of pity because of suffering and a total lack of health, while in other instances favorable surroundings and prudent living hold the disease in check until later in life. A deep-seated blood disease like Scrofula can only be reached later in life. A deep-seated blood disease like Scrofula can only be reached later in life. A deep-seated blood disease like Scrofula can only be reached later in life. A deep-seated blood disease like Scrofula can only be reached later in life.

S.S.S.
PURELY VEGETABLE

makes this life stream fit to supply every part of the system with strength and vitality. Scrofula yields to S. S. S. because it is a natural blood purifier. Write for book on the blood and any medical advice desired. No charge for either.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Army Engineers Dig Canal.

Latest Chapter In Uncle Sam's Long and Lively Serial Story, "Panama."

Colonel Goethals Now Undertakes to Complete the Task of Finding a Waterway to the Orient Which Christopher Columbus Started Four Hundred Years Ago—Hard to Keep Bosses "on the Job." Ratification, Glorification, Indignation, Resignation—Probably Down to a Working and Sticking Basis at Last.

By ROBERTUS LOVE. UNLESS the chief typewriter should resign before this goes to press, thus necessitating a readjustment, the probability is that United States army engineers will superintend the construction of the Panama canal, with Lieutenant Colonel George Washington Goethals as chief engineer. Isthmian canal history for the past three centuries has shown that resignations and readjustments are always in order, and the recent history of the specific Panama project indicates that the natural course of government appointees to high place in the canal work is ratification, glorification, indignation, resignation. The senate ratifies, the press glorifies, the appointee finds himself disgusted with his local habitation and indignant at official supervision, and then comes his resignation.

Uncle Sam has a capacious month and strong grinding molars. He is not inclined to admit that he ever bites off more than he can chew. He has undertaken to bite a ditch across the backbone and spare ribs of the isthmus of Panama. He is going to bite it, too, if it takes a century, and chew up all the gristle. That's the American bulldog grip.

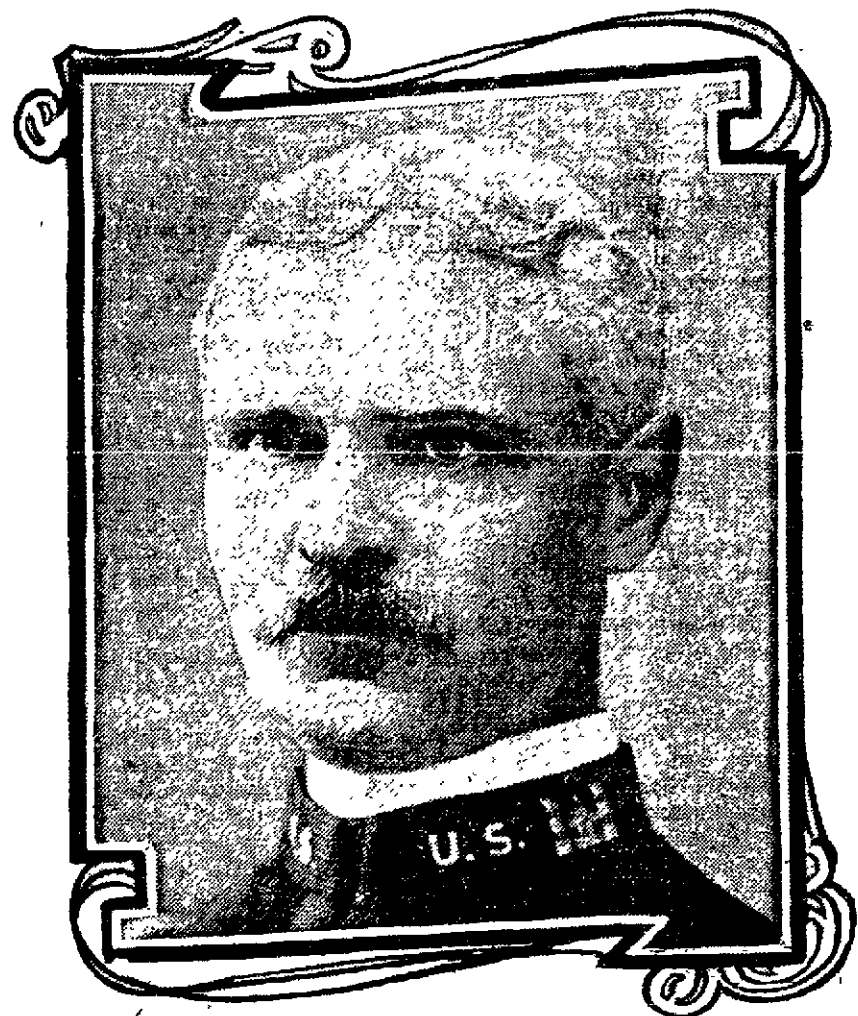

It seems reasonable to assume that at last the canal project has been brought down to a practical working basis. In the past few weeks events have trodden on each other's heels. The whole Panama situation has changed. Here and there crops out a hint as to why the change has come about, but for the most part the story is a sealed book. It may be opened later, and if so it will make "mighty

him a larger salary than he was receiving for the canal job. He accepted the New York job Secretary Taft's interview with Mr. Wallace in regard to his resignation is historic. The big secretary, figuratively, jumped on the engineer with both feet. Mr. Wallace was told that he had violated a trust, that he had deserted his country's work at a critical moment, and that for mere lucre he had given up his opportunity to go down to posterity as the digger of the big ditch. The president's indignation was of a warmish skin to that of Secretary Taft, though he let the war secretary do most of the frothing.

Mr. Wallace is said to have given as his real reason for quitting the lachronic three word explanation: "Too much interference." Then John F. Stevens, another eminent railroad engineer, was induced to tackle the Panama proposition. He was to receive a salary somewhat in excess of that paid to Mr. Wallace. Mr. Stevens went down to the canal zone amid the fanfare of public approval as the right man in the right place at last. He it was who would pass along to posterity as the man who bit the backbone out of Panama. Once more the president and the people breathed with relief. The dirt which Mr. Wallace had marked out began to fly under Mr. Stevens' shovels.

A new chairman for the canal commission, a safely strenuous person, who had been in the business of building railroads in the middle west, was proposed to the president by Paul Morton, then secretary of the navy.

"What are his qualifications?" President Roosevelt is said to have inquired.

LIEUTENANT COLONEL GEORGE W. GOETHALS.

Interestin' readin'." That there is an African in the woodpile is strongly indicated by the remarkable succession of events. In some quarters the belief is strong that certain powerful persons—grown powerful through the exercise of special privileges heretofore—have been seeking systematically to manipulate the Panama business so that they can carve it up as a luscious melon and divide it among themselves.

Irrespective of political affiliations the American people in general have confidence in the ability of President Roosevelt, upon whom the final responsibility devolves, to prevent this large job of melon slicing—if such a thing is contemplated. To return to plain language, the direct insinuation has been made that a coterie of New York capitalists have cherished fond hopes of profiting to the extent of many millions by furnishing the supplies necessary, or presumably necessary, for the building of the canal. Now that the administration has rejected all bids for the contract and has designated Colonel Goethals and other army engineers to do the work, it is not unreasonable to assume that any such deal has been rendered extremely difficult.

About two years ago John F. Wallace, a distinguished railroad engineer, was appointed to the post of chief engineer for the Panama canal. The president and the people believed that the right man had been put in the right place. But after a few months Mr. Wallace turned in his resignation.

Resignation No. 1.

The Interborough railway combination, which controls the surface, elevated and underground street car lines in New York city, had offered

"Well, for one thing," replied Mr. Morton, "his name is Theodore." Theodore Perry Shonts was investigated and found to be a man of parts. Everybody, with the president, believed him to be just the man for the place. With Shonts as chairman and Stevens as chief engineer that ditch was sure to be dug. They would make the dirt fly like chaff from the tail end of a thrasher, and Uncle Sam was almost ready to begin taking toll for the passage of ships from Colon to Panama and vice versa. We could almost hear the mingled brines of the Pacific and the Atlantic swishing through the canal.

Last fall President Roosevelt made his trip to the canal zone. Secretary Taft also visited the zone. Both reported things moving smoothly, and "All's well" was the cry of the watchmen on the tower. The public had not finished reading the president's special message to congress, illustrated, on the Panama canal when a gun which nobody knew was loaded took sudden occasion to explode.

Chairman Shonts resigned.

Resignation No. 2.

Explanation? Why, he had put things in fine working order, and Engineer Stevens could do the rest. Besides, he had an offer from the Interborough folks in New York city, the same who had annexed Engineer Wallace. He was to go to New York and be president of the company at a bigger salary than he was receiving for the Panama job. His resignation was accepted promptly. Mr. Stevens being named for chairman.

Secretary Taft did not jump on Mr. Shonts with either foot, so far as the public is aware. No doubt the view-

point of the administration with regard to the inherent desirability of a Panama job had changed with observation on the spot. The general public, however, thought it curious—a curious coincidence, so to speak—that the same concern had annexed both chief engineer and chairman. It reminded one of a celebrated couplet in the Kansas bard Thomas Brower Peacock's rhyme of the border war:

On her he then took pity
And took her up to Kansas City.

The Interborough seems to have taken pity on these two gentlemen languishing in the lonesome and malarious canal zone and took them up to New York city, where things were going on.

The next move on the board was to let the canal job out to some experienced contractor. Mr. Stevens still exercising supervision, William J. Oliver of Knoxville, Tenn., made the lowest bid, and it was announced that this was to be accepted. Mr. Oliver organized his company, secured the requisite capital and was almost ready to embark for Panama when something happened.

Resignation No. 3.

Mr. Stevens resigned. As yet nobody seems to know just why. There are those who say that it was because Mr. Stevens is passionately fond of golf, and Panama has no golf links. Others aver that he is passionately fond of reading, and the mucky atmosphere of the canal strip causes a green moss to grow on the pages of his favorite tomes. Both these explanations of course are facetious, and yet they are to be estimated with some degree of seriousness, for it is undeniable that Panama is a long way from the golf links, the Carnegie libraries and all the other adjuncts of civilization that make life worth living after a man has lived in Chicago, where Mr. Stevens hails from.

There is also a hint of red tape in explanation of Mr. Stevens' throwing up the sponge. It is said furthermore that he did not receive with bludgeoned equanimity the constant criticism of his work, though it is understood that the administration was satisfied with his conduct of the big job.

At any rate Mr. Stevens resigned, his resignation was accepted, and upon the heels of it came the announcement that all bids for the contract were rejected and that the canal would be constructed by army engineers.

Naturally Mr. Oliver, who says he has spent \$40,000 in perfecting his company and his plans, felt like a man who had bought a sweet orange and had a sour lemon delivered to him. He remarked:

The New Canal Engineers.

Colonel Goethals, who is to be the head of the new isthmian canal commission, has been serving on the general staff of the army at Washington. He is forty-nine years old and was graduated from West Point in 1880. As assistant engineers the president has named two majors of the engineer corps, D. Du B. Gaillard and William L. Sibert, forty-seven and forty-six years old respectively and both of the West Point class of 1884. These three gentlemen have had long service as army engineers. For the canal work their salaries are to be largely increased. An army officer, however, is subject to resignation if he doesn't like his job. The theory of the president seems to be that Colonel Goethals is young enough to see the job through, and if he should not stay until the end one of the two majors mentioned will be qualified to succeed him.

Meantime the work is going on, the steam shovels are cutting out the ditch and progress is reported. There appears to be a reasonable expectation that the canal will be completed by about 1917 and at a cost of not more than \$300,000,000, perhaps not nearly so much. As to time and cost, however, nothing definite should be ventured. The isthmian canal is and always has been an unknown quantity. We are coming to know more about it, but we must learn mostly by experience.

The Panama canal idea is just 357 years old. Antonio Galvao, a Portuguese navigator, in 1550 proposed to the king of Spain a plan for cutting a canal through the isthmus. Christopher Columbus discovered the isthmus in 1502. Eleven years later, from the summit of the mountains in that part of the isthmus which used to be called Darien, Miguel Cabello de Balboa discovered the Pacific ocean.

Balboa climbed that "peak in Darien" with the specific purpose of discovering a water passage to the orient. Columbus made his voyages with the same purpose in view. Though he never knew it himself, believing he had reached Asia, the great navigator ran against an obstruction in the shape of two vast bodies of land connected by a narrow neck. This land has turned out to be quite valuable in many ways, but it still obstructs the westward passage from Europe to Asia.

The government of the United States of America is trying to bisect the new continent at its narrowest point, and in cutting the canal across Panama we are simply finishing the job undertaken by Columbus more than four centuries ago. Such a passage is needed now vastly more than it was needed then. It will be needed next century no doubt vastly more than it is needed now.

And Uncle Sam is going to do the job, though men die and men resign. Though we all want to see the ships sailing through the canal just as soon as may be, we can afford to wait a few years longer, since the world has waited 400 years after discovering that the earth is round like an apple instead of being flat like a pancake.

The Family Physician

The best medicines in the world cannot take the place of the family physician. Consult him early when taken ill. If the trouble is with your throat, bronchial tubes, or lungs, ask him about taking Ayer's Cherry Pectoral. Do as he says. We have no secrets! We publish J. C. Ayer & Co., the formulae of all our preparations. Lowell, Mass.

A NEW OUTFIELDER

BLUFORD WALLS.

One of Manager Berryhill's promising youths—He is new in Utica, O.

BASEBALL GOSSIP.

Only 31 days until reporting time. The morning papers today contained box scores of a game played at Mexico City. It looks good to see those figures again. The baseball season is sure near at hand.

The Vets on the Chicago White Sox team defeated the colts at Mexico City by the score of 8 to 2. The Colts had twice as many errors as nits.

The Chicago Nationals defeated the New Orleans club yesterday 11 to 5. The Cubs had five errors. The American Association schedule makers had a session at Chicago yesterday and the work of the schedule committee was knocked into a cocked hat. Kicks came in from all sides and the dates will have to be rearranged.

The Cleveland team is now at Macon, Ga., where they will train. Ad-die Joss joined the delegation just before the conductor called "all aboard." Terry Turner also signed a contract and got on the train. His papers call for a neat salary.

Thursday of this week is the date set for the meeting of the O. P. schedule committee at Akron. Manager Berryhill has a schedule which will be submitted to the committee. S. V. Rutledge representing the Newark club on the committee, will also submit a schedule.

Will Arrange New Schedule. Chicago, March 11.—The schedule committee of American Association of Baseball Clubs met here for the purpose of taking action on the schedule of games for the coming season. So much dissatisfaction with the schedule developed that it was decided to abandon it and to arrange a new one, which will probably be ratified at another meeting next Sunday. The season will open April 17 and close Sept. 16, including 154 games.

SOUTH SIDE BOYS WON PENNANT IN INDOOR LEAGUE

The South Side boys won the pennant in the Grammar School league after an exciting series of games. North Fourth defeated South, and South defeated Central which tied Central and South for first place.

There never was a better game of in-door baseball played in Newark. The score was 4 to 3 which would equal 1 to 0 in an outside game, as it is very much easier to run bases in the inside game. The game was really brilliant and full of sensational plays.

The Central boys are graceful losers. Captain Clayton and Manager Buche broke all records for clean athletics, by making the following statement after the game: "The umpiring was all right. Both teams got a square deal. They just beat us, that's all."

When it is considered that by losing Saturday's game Central lost the championship, also a beautiful silk banner, it will have to be admitted that while they lost the championship they won a new record in clean athletics. The score:

South . . . 0 0 2 0 0 2 0 0 0—3
Central . . . 0 0 1 1 1 0 0 0—1

Arrangements are being made to line up the teams for the outdoor league so the Grammar school league may get an early start.

The Emperor of Austria is said to have the finest collection of orchids in the world at his palace at Schoenbrunn. There are 48,000 plants.

IS HE JUSTIFIED? A PROBLEM OF LIFE AND DEATH.

THE ILLUSTRATED LONDON NEWS

The problem here illustrated is not unknown in Alpine climbing. While cutting steps in the snow on the top of the precipice one mountaineer missed his footing and fell, dragging down his companion, who became insensible. His own arm was broken. The guide had just time to make one twist of the rope around a slight projection of the rock, and was able to wedge himself so that he supported his companions for a time, but as there was only one twist around the rock the slightest movement

would have made the rope slip, and the guide would have been dragged down. No help was within miles. The problem for the guide, therefore, lay between hanging on until he should be exhausted and fall also, or cutting the rope as his own last chance of life.

IT RAISES THE DEAD.

Remarkable Mechanism Invented by a Virginia Man.

RESUSCITATES THE DROWNED

Professor Poe's "Respirator" Sober Drunken Men—Will Revive Persons Hanged, Electrocuted or Asphyxiated by Gas—It Neutralizes Poison.

Almost sightless and semiparalyzed, Professor George Poe, living the life of a recluse on a backwoods farm in Norfolk county, Va., claims to have solved the problem of raising the dead by means of his "respirator," as he calls the machine which he has invented for the purpose. Tests of it have already been made in the presence of Norfolk and Portsmouth city physicians, asphyxiated or smothered dogs and rabbits being the subjects, says the New York World. In each case the animal, after being pronounced dead by the physicians, was brought back to life by Professor Poe's device and soon afterward was frolicking around in the full joy of life.

The inventor claims that the machine will resuscitate persons killed by asphyxiation, poison or drowning; prevent death by an anesthetic while a patient is being operated upon, prevent "infant asphyxia" at birth, make drunken men sober in a few minutes, revive men electrocuted or hanged, the latter only in cases where the neck has not been broken, and prevent freezing to death even in the arctic.

The professor's model is simply that of the human heart. The problem in the case of persons drowned, suffocated or dead through anesthetics was to remove the fluid or the poisonous gases from the stomach or lungs and at the same time pump life giving oxygen in. So Professor Poe began experiments on what he calls double larynx tubes and two tubes to connect the nostrils, one for inlet and the other for outlet. Studying the action of the heart, he saw that it was that of a double cylinder, or, rather, two cylinders, right and left ventricles and right and left auricles. With the assistance of young Ostrander he built a working model in line with the construction of the heart, a simple machine with two cylinders, each having an inlet and an outlet valve. The plungers of each cylinder are made to work simultaneously.

The machine will in a very few minutes sober up a drunken man who has fallen into stupor.

Thomas Black, a retired business man of Norfolk, on being shown the plans obtained permission to exhibit them to Dr. Francis M. Morgan, a physician of Norfolk. Dr. Morgan immediately saw that it promised to be an immense boon to humanity, and he induced the professor to demonstrate it before a committee of Norfolk county and Norfolk city doctors. They witnessed the smothering of rabbits and dogs to the point of what they declared on their professional honor was absolute death and then saw them resuscitated.

Dr. Morgan recently described a demonstration given in his office by Professor Poe and his machine in the presence of himself and Dr. J. P. Jackson and Dr. N. G. Wilson. On the operating table was the little brass machine, composed of two small cylinders about a foot high and six inches in circumference, with a pump handle. Pipes led from a tank of oxygen to the machine, and from it tubes fitted with nostril pieces were to be fastened to a rabbit. The rabbit was put on the table and one of the doctors injected two grains of morphine into its leg, after which four ounces of ether was given. Of course the rabbit was dead after this, and the doctors applied every known test to discover signs of life. No life was there, and the doctors agreed that life was positively extinct.

Then Professor Poe applied the tubes to the rabbit's nostrils, and, pumping out the poisons with one cylinder and pumping oxygen into the lungs with a simultaneous movement of the valves, within three minutes the rabbit, but lately dead, was breathing naturally, and within six minutes it was running around the room. It showed no sign of nausea, proving that the ether was entirely out of the system.

Next a dog was placed in a box containing a heavily charged atmosphere of acetylene gas, one of the most poisonous gases known, and smothered there for forty minutes. The dog was taken out, and doctors examined him and pronounced him dead beyond hope of resuscitation. But the little machine got in its work, and the dog, after four or five artificial respirations, began breathing naturally, and soon his pulse was beating normally.

A practical working machine, says Dr. Morgan, is now being constructed in Baltimore and will be exhibited at the Jamestown exposition, which will open April 26.

Dr. Morgan says the inventor does not claim that his device will restore life after diseased tissues refuse to work or after the heart is worn out and broken down, but he does claim that it can resuscitate drowned persons and those strangled or smothered to death.

"The principal use of the machine," said Professor Poe, "will be for resuscitating asphyxiated persons in coal mines, in hotels where people blow out the gas and in lodging houses where the slot meter is used. Life saving stations and ambulances will eventually be equipped, and I feel confident that the legislature of every state will compel every hotel to have one, the same as they require fire escapes now."

AN ISTHMIAN EXPOSITION.

Tampa Proposes to Celebrate Canal Start in 1903.

Colonel T. J. L. Brown, president of the chamber of commerce at Tampa, Fla., says in an interview in the Washington Post:

"Tampa leads the entire world in the output of clear Havana cigars. In 1906 the output of Havana cigars, ranging in price from 5 cents to \$1.50 each, equaled that of the entire island of Cuba. Nearly 400,000,000 cigars were made. Tampa also is the nearest port in the United States with ample railroad facilities to the Panama canal. It is proposed to celebrate the beginning of work on this great project with an exposition in January, February and March, 1903. For this purpose a company has been organized, and at the last session of congress we secured the indorsement of that body. There is no other city in the United States that has grown so rapidly as Tampa has in the last ten years. We have twenty-six feet of water at Port Tampa and by July will have twenty feet on the city water front. Tampa is the terminus of numerous railroad lines already built, and other roads leading to the city are in process of construction. A week ago we organized a chamber of commerce, and we already have a large board of trade.

"The greatest need of Florida today, like that of every other southern state, is for labor. From every corner of the state there comes a cry for labor that remains unanswered, and millions of dollars of capital are lying idle because it is impossible to get men to work even at high wages on the various new industries that are being planned. This situation is extremely unfortunate, and everything possible is being done to improve it. Through the holding of state fairs we have added about 10,000 people to our population, but this number is insignificant compared with what we need. We expect to bring in thousands through the isthmian exposition, for which we shall ask congress to appropriate money only for the payment of premiums on products to be exhibited. Florida during the summer and winter months has the most temperate climate of any state in the Union, a fact that the records of the weather bureau will prove. No state offers greater advantages to the farmer, laborer or capitalist, and none is more beautiful. It has been known as the land of sunshine and flowers for so long a time that many persons think we can boast of nothing else, but it is a fact that we produce a greater variety of substantial agricultural products than any other state, and no state can show finer live stock, while we are also away up in minerals and manufactures."

BOOTHS STILL DIVIDED.

No Union of Salvation Army and Volunteers Probable.

General Ballington Booth of the Volunteers of America was asked by the New York Sun whether the arrival of his father, General William Booth, signified that there was a plan to amalgamate the Volunteers with the Salvation Army. He said:

"First, I have had no intimation whatever of my father, William Booth, coming to this country, having merely seen the announcement in the newspapers. My last long letter to my father, which was one of sympathy at the time of the death of his daughter, Emma, was answered by a secretary in the briefest and most distant manner. From this silence Mrs. Ballington Booth and I have been left to infer that the attitude of the Booth family toward us is precisely the same as it was when for reasons we left the Salvation Army and took our stand eleven years ago.

"We were then informed that unless we came back to the Salvation Army in submission to their dictates we should be looked upon as strangers and renegades. They never write us, nor do they ever take the slightest interest in our personal affairs.

"Second, there is no more likelihood of the Volunteers of America under our presidency amalgamating with the Salvation Army than there is of the Methodist church joining that movement because Herbert Booth, who has ceased to be a Salvationist, is now an evangelist in that body. We differ from the Salvation Army in government, policy and principle, and the majority of our people have never served in that organization and would not wish to be confused or officially identified with it.

"It is very painful to Mrs. Ballington Booth and myself that this subject should be constantly brought up. We speak with great reluctance concerning it. Indeed, we would not speak at all were it not that we owe a duty to many comrades and friends all over the country."

Mrs. Ballington Booth said that she concurred in every word her husband had said.

Engineer Invents a Switch.

A. M. Jones, a former engineer of the Baltimore and Ohio railroad, who is now living near Cumberland, Md., has invented a temporary cross-over appliance to be used by railroads. By the new method Mr. Jones said that a temporary switch can be arranged to be used by trains within an hour, while by the present process it takes about a day to install a switch. The new arrangement is devised for use in the case of accident or for other causes, when it becomes necessary for trains to be temporarily transferred from one track to another quickly. The new device is clamped to the rails and gradually rises, passing over the rails it crosses.

"Hurry up with that STAR Plug"

There is no time to lose! When a man wants a good chew he wants "Star"—and wants it quick! No other chew will do for those who know the rich treat in every bite of

STAR
PLUG CHEWING TOBACCO

"Star" quality is no accident—no over-night product. For forty years "Star" chewers have got the same high quality—the same full-weight 16 oz. plug—at the same price.

"Star" is the best product of the highest talent in the chewing tobacco business and has steadily increased in popularity. Only the choicest, best-bodied, ripest, sweetest leaf is used in "Star"—which makes an elastic and lasting chew. It is far more economical than the other kinds because it lasts longer.

150,000,000 16c. pieces sold annually.

In All Stores

THE HUMAN BRAIN.

It Neither Originates a Word Nor Forms a Notion.

Those physiological and surgical facts which show that brain matter has itself no capacity for thought are of such recent discovery that only a relatively small number of persons—mostly specialists—have the least idea that the brain neither originates a word nor forms a notion. Anatomy and physiology alike indicate that the brain is never other than the instrument of what—in the present state of science—must be called the "personality." The personality is as different from, as separate from, the brain as the violinist is separate from his violin. It is not brain which makes man. Man makes one of his brain hemispheres human by his own labor. If a human personality entered a young chimpanzee's brain—where, by the way, it would find all the required cerebral convolutions—that ape could then grow into a true inventor or philosopher, for it is the great man who makes the great brain and not the great brain which makes the great man. This is another way of saying that we can make our own brains—so far as special functions or aptitudes are concerned. Human brain matter does not become human in its powers, indeed, until the personality within takes it in hand to fashion it.

What is the "he himself" which thus takes the mechanism known as the brain and uses it for thought purpose as a telegrapher would use a ticker and a series of wires for the transmission of messages? In the present state of anatomy and pathology, replies Dr. Thomson, in effect, we have here the greatest mystery connected with the conscious personality. We know that the conscious personality—or whatever one pleases to call it—has a material organ to think with. The conscious personality does the thinking. The material organ is the instrument of thought, and that material organ exists in two symmetrical halves. It is only one-half of this organ, however, which can be used for speech or for recognizing or knowing anything which is either seen or heard or touched—in the sense of the touch which is educated.

All acquired human endowments therefore are acquired by modification of the material comprising the speaking half of the brain. This speaking half of the brain did not originally have a single one of these great functions, not a single place in it for them, any more than its fellow hemisphere has to the end of its life. They are all stamped, as it were, each in its respective place in the speaking hemisphere, by a single creative agency. All words and all knowledge are put in the brain and arranged there for use, like so many books on their brain shelves by the brain's librarian. Where he goes when he looks this library up and leaves for the night—in sleep—we do not know. But one thing is certain—not one of the books made itself or put itself where it properly is.—Current Literature.

It's a Fact

a Well proven Fact, that

RHEUMATOL

IS THE BEST RHEUMATIC CURE ON THE MARKET.

It is a preparation made from the prescription of an old Michigan physician, a prescription brought to our store more than fifteen years ago, and since the death of that physician, we have taken the liberty of giving the public the benefit of his knowledge of the cure of RHEUMATISM.

MOREOVER, we know so positively, just what the remedy will do, that we offer and will return to you your money in the event that you are not cured, for IT WILL CURE ANY CASE OF RHEUMATISM.

Ernest T. Johnson

Druggist.

No. 10 Warden Hotel Block.

We Offer \$1,000.

For a Disease Germ That Liquozone Cannot Kill.

This offer goes out with every bottle of Liquozone. Do you suppose we would do that if any known germ could resist it?

Liquozone is for those who believe that a germ disease calls for a germicide; that the germs must be killed before the trouble can end. You have doubtless tried the old ways, and you know the results. We ask you to try the new way; to try it at our expense. Use what millions have used and learn what they know about it. You are not fair to yourself until you do that.

What Liquozone Is.

Liquozone is a tonic-germicide, the virtues of which are derived solely from oxide gases. No alcohol, no narcotic, nothing but gas enters into it. The process of making requires large apparatus, and consumes 14 days' time. The object is to so combine the gases with a liquid as to carry their virtues into the system.

The result is a germicide so certain that we publish with every bottle an offer of \$1,000 for a disease germ that Liquozone cannot kill. It destroys them because germs are of vegetable origin. But to the body Liquozone is exhilarating, vitalizing, purifying. That is its main distinction. Common germicides are poisons when taken internally. They are impossible, for

they destroy the tissues as well as the germs. That is why medicine proves so helpless in dealing with germ diseases. Liquozone, on the contrary, acts as a remarkable tonic.

We Paid \$100,000.

For the rights to Liquozone, after thousands of tests had been made with it, after its power had been demonstrated for more than two years in the most difficult germ diseases. Conditions which had resisted medicine for years yielded at once to it, and diseases considered incurable were cured.

That was five years ago. Since then millions of people in every part of the world have shared in the benefits of this invention. Nearly every hamlet, every neighborhood, has living examples of its power. Now we ask you to let it do for you what it did for them.

Germ Diseases.

Most of our sickness has, in late years, been traced to germ attacks. Some germs—as in skin troubles—directly attack the tissues. Some create toxins, causing such troubles as Rheumatism, Blood Poison, Kidney Disease and nerve weakness. Some destroy vital organs, as in Consumption. Some—like the germs of Catarrh—create inflammation; some cause indigestion. In one of these ways, nearly every serious ailment is a germ result.

Such conditions call for a germicide, not for common drugs. Liquozone does what other means cannot accomplish. And it is wrong to cling to old ways when millions of people know a way that is better.

50c Bottle Free.

If you wish to know what Liquozone does please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and will pay the druggist ourselves for it. This is our free gift, made to convince you; to let the product itself show you what it can do. In justice to yourself, please accept it to-day, for it places you under no obligations whatever.

Liquozone costs 50c and \$1.

CUT OUT THIS COUPON
Fill it out and mail it to The Liquezone Company, 433-44 Wabash Ave., Chicago.

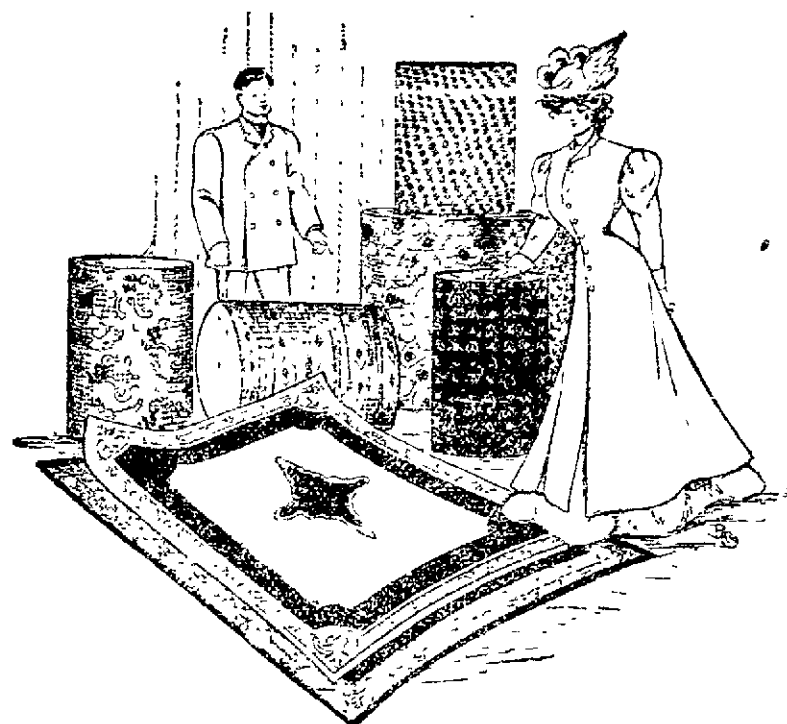

My disease is _____
I have never tried the new Liquezone, but if you will supply me a 50c bottle free I will take it.

SHIP BUILDERS

WILL CLOSE YARDS ON THE
GREAT LAKES BEFORE THEY
SUBMIT.

To the Demands of the Union—Son
Kills Father With Baseball Bat
—Ohio News

Cleveland, O., March 11.—The
American Shipbuilding company will
close all its yards on the Great Lakes
and spend all of something like \$2-
000,000 before it will yield to the de-
mands of the shipbuilders' union. This
statement is made by one closely in-
touch with the affairs of the American
Shipbuilding company. The shipbuilders'
and builders' union has made the de-
claration that if its demands are
not granted a strike in the yards in
Cleveland, Detroit, West Bay City and
Chicago will be ordered immediately.
Several thousand men are already out
at Lorain.

A Harriman Story.

Marion, O., March 11.—A few years
ago E. H. Harriman, the railway king,
was unable to pay cash for a big
dredging machine which he wished to
secure from a local manufacturing
concern, and it was with difficulty
that he got credit as part payment.
At that time Harriman was compara-
tively unknown, and when he asked
to be given a machine on part pay-
ment the company had its doubts.
The deal was finally effected, how-
ever, and Harriman got his machine,
paying for it later.

Austrian Used Knife.

Steubenville, O., March 11.—Murder
and a fatal stabbing was the outcome
of gambling in a Serbian boarding
house here. Mike Velosovich, an Aus-
trian, came from Pittsburgh to play his
countrymen, and it is said was de-
tected cheating. In the fight that fol-
lowed he stabbed Sava Gergovich six times,
killing him almost instantly. Mike
Gergovich, who tried to save his
brother from injury, was stabbed
three times in a fatal manner. Veloso-
vich escaped.

Bridge Cases Set For Trial.

Lima, O., March 11.—The indict-
ments by the last grand jury of of-
ficials of the Bellefontaine Bridge com-
pany as a result of the recent investi-
gation of the so-called trust were
made public, and their cases were set
for trial April 1. Those named as de-
fendants are President W. T. Havil-
and, Secretary and Treasurer J. E.
Miller and Directors John Houpt and
P. E. Cory.

For Breach of Promise.

Delaware, O., March 11.—Miss Mis-
souri Harroun, daughter of Magistrate
Harroun of Ashley, who brought suit
for \$5,000 for breach of promise
against F. M. Jefferys, a retired manu-
facturer, 30 years her senior, was
awarded \$2,500 by the jury after an
hour and a half deliberation.

Plant Destroyed.

Cincinnati, O., March 11.—Fire,
originating presumably from crossed
wires in the excelsior room of the
Ohio Carriage company's factory, com-
pletely gutted the plant. Loss \$70-
000, fully covered by insurance. H.
C. Phelps is president and treasurer
of the company.

Son Interfered.

Solon, O., March 11.—Richard Ken-
nedy, Jr., 20, struck his father with
a baseball bat, killing him instantly.
His father and mother were quarrel-
ing and the son came to his mother's
rescue, dealing his father the fatal
blow. The boy surrendered to the
police.

Growsome Find.

Ashville, O., March 11.—Wrapped in
a Columbus newspaper bearing the
date of Jan. 21, the body of a white
male infant was found in the Scioto
river, two miles west of Ashville.
Aside from being bloated, the body
was not badly decomposed.

DOGS KILL SHEEP.

Mr. S. P. VanVoorhis reports that
dogs again got into his flock of sheep,
killed five and wounded ten Sunday
morning. Mr. Van Voorhis' hired
man traced the dogs to Riley street
in West Newark, and one was killed,
while a second will probably suffer a
like fate.

CALLED FOR TRIAL.

Case of the Federal Government
Against the Lackawanna.

New York, March 11.—One of the
cases of the federal government in the
sugar rebate cases, that against the
Delaware, Lackawanna & Western
Railroad company, was called for trial
here today. In this case the govern-
ment charges that payments made to
Lowell M. Palmer, owner of Palmer's
docks, Brooklyn, of 2 cents per 100
pounds on sugar shipped beyond Buf-
falo, and 1 cent per 100 pounds on
shipments to points this side of Buf-
falo, constituted a rebate within the
meaning of the law. The railroad
contends that the payment made to
Palmer was to recompense him for his
loss in profit on business given the
Lackawanna through the fact that the
Lackawanna's freight did not pass
through his docks, while that of other
roads did.

Killed at a Crossing.

Buffalo, March 11.—Michael Bower,
a well-to-do farmer, and his 10-year-
old daughter Isabel, were instantly
killed on a crossing of the Erie rail-
road at Lancaster. Bower's 13-year-
old daughter Rose is dying from her
injuries.

DEATHS AND FUNERALS

MARTIN EHRET.

Martin Ehret, aged thirty-seven
years, a molder employes at the
Wehrle stove foundry, and residing
at 52 Grant street, West Newark,
died at his home Sunday morning at
6 o'clock. Death was due to pneu-
monia and followed an illness of but
one week. The body will be taken to
the former home of the deceased in
Quincy, Ill., Wednesday, for burial.
The deceased leaves a wife and two
children, and was a member of the I.
M. U., local branch 152.

AN INFANT'S DEATH.

The six weeks old infant of Mr.
and Mrs. J. H. Dermer, 28 Railroad
street, died Sunday evening. The
body was shipped to Columbus on the
Pennsylvania at 12:30 Monday.

MRS. HIBLER'S FUNERAL.

The funeral of Mrs. Thomas Hibler
took place Sunday afternoon at two
o'clock at the residence on Seroco av-
enue. The funeral services were con-
ducted by the Rev. Jos. A. Bennett.
Interment was made in Cedar Hill
cemetery.

The following out of town relatives
were here to attend the funeral: Mr.
and Mrs. Geo. Atkinson of Ironton,
O.; Mrs. Chas. Parker of Cincinnati,
O.; Mr. and Mrs. Ed Hibler of Ne-
brington, O.; Miss Ethel Hibler of
Beaver, Pa.; Chas. Hibler of Kokomo
Ind.; Rollin Supple and Miss Mayne
Morgan of Columbus, O.

MRS. ANN RICHEY.

Hanover, O., March 11.—Mrs. Ann
Richey, one of Hanover's oldest citi-
zens, aged about 87 years, died at
her home here Monday at 10 o'clock.
She had been seriously ill but about
two weeks.

There remain three daughters, Mrs.
Emma Mansul, M. J. Hester Evans
and Miss Sarah Richey, and four
brothers, James, David, Orrin and
Conrad.

Funeral arrangements have not yet
been made.

MR. AND MRS. JOEL SMITH.

Johnstown, O., March 11.—Mr. Joel
Smith, one of the oldest and best
known residents of Jersey township,
died at his home on Sunday after
an illness of some time with the
illness peculiar to advanced age, he
being about 90 years old. He was
one of the pioneers of the township,
and a veteran of the Civil war. He
was held in the highest esteem by all
who knew him. He is survived by
several children. The funeral ser-
vices were held Monday.

Mrs. Smith, the widow, died Mon-
day morning after a short illness of
grip, aged 86 years. Mr. and Mrs.
Joel Smith were the oldest married
couple living in Licking county.

STROKE OF PARALYSIS.

Johnstown, O., March 11.—James
Myers, aged 54 years, well known
resident of this place, sustained a
stroke of paralysis at his home here
on Sunday morning and died Sunday
night. He was an old soldier and
served in the civil war. Six children
survive him. The funeral will be
held Tuesday at Concord.

MOSES TIMENS.

Moses Timens, prominent resident
of Licking county, died at his home
in Liberty township on Sunday after
a short illness of pneumonia, aged 60
years. He was president of the school
board of the township, and was a
man who was held in high esteem.
He is survived by his widow and sev-
eral children. The funeral will be
under the auspices of the Odd Fel-
lows on Tuesday.

MEMORIAL

In sad but loving remembrance of
our dear mother, Ernestine Zahn who
died March 12, 1906. Anniversary
requiem high mass at St. Francis de
Sales church, March 12, 1906, at 8
o'clock a. m.

Oh it was hard that winter day
To see our loved one pass away.
The angels hovering about her room
At evening whispered, Mother, come,
Then on the wings of heavenly love
They bore her to her home above.
The loving heart is now at rest;
God took her when he thought best.
When we are done with toil and care
We will meet our mother there.
From her husband and children.

CARD OF THANKS.

We desire to thank our friends and
relatives for their kindness and sym-
pathy during the illness and death of
our beloved wife and mother. Free-
man Jones and children.

CARD OF THANKS.

We desire to thank the friends and
neighbors for their kindness shown
us during the sickness and at the
time of the death of our dear wife
and mother. Also for the beautiful
funeral services. Mr. Clark Shira and
sons

Mounted on bicycles 20 Chinese
bandits raided a tobacco shop near
Peking recently and made off with
the contents of the safe.

STEAMER

STRUCK BY A MONSTER WAVE,
WHICH WAS FIFTY FEET
IN HEIGHT.

Tons of Water Flooded the Vessel,
and She Drifted For Over Eight
Hours.

New York, March 11.—The French
line steamer La Savoie, from Havre
March 2, carrying more than 1,100
passengers, arrived here after per-
haps the most severe experience of
the transatlantic liners that have re-
cently reported rough weather. This
steamer ran into a series of gales,
which increased in violence until
Thursday, when a monster wave
swept the main deck and forced Cap-
tain Tourner to bring his trembling
craft to. She drifted eight hours be-
fore the voyage could be safely re-
sumed. This wave, which measured,
officers say, about 50 feet in height,
broke over the ship to forward port
side. In a moment tons of water
flooded the vessel, shattering a heavy
oak door which opened into the cor-
ridor outside the smoking saloon.
Great volumes of water rushed in,
swept along the corridor and then
poured down the grand stairway into
the main dining room.

Thirty-four Persons Drown.

Berlin, March 11.—A dispatch from
Cuxhaven reports the loss of 34 lives
by the foundering of two vessels—a
German cargo steamer, the George
Wottern, and a trawler—during a
heavy gale in the North sea. The dis-
patch says no further details have
been received, but that it is believed
those drowned comprised all aboard
both vessels.

Swell in the Danube.

Bucharest, March 11.—The Danube
is thawing rapidly and flooding thou-
sands of acres of cultivated land, the
inhabitants and their cattle and sheep
escaping with great difficulty. The
water continues to rise and the dan-
ger is increasing.

OBITUARY.

Jacksontown, O., March 11.—Mrs.
Lavina Jones died at her home in
Jacksontown, Monday afternoon at 1
o'clock after a few weeks' illness of
pneumonia and heart failure, aged
59 years, 10 months and 5 days. She
was the youngest daughter of Theo-
dore and Elizabeth Green of Licking
township, where she was born and
lived all her life. She was married to
Freeman Jones, a farmer, December,
1869. To this happy union was born
one son and two daughters, all living.
The deceased is survived by her hus-
band, Freeman Jones, one son, Perry
Jones of Jacksontown, and two
daughters, Mrs. William H. Orr of
Jacksontown, and Mrs. Wm. A. Fulk,
of Jacksontown, and six grandchild-
ren. Also one brother, Isaac Green,
of Hebron, and two sisters, Mrs. Mary
Jones of Thornville, and Mrs. Eliza-
beth Woolard of Hebron, besides a
host of relatives and friends.

Funeral Wednesday at 10 a. m. at
the Fairmount church, Rev. Mr. Ruff-
ner of Millersport officiating, and
burial in the Fairmount cemetery.
The deceased departed this life hope-
ful and peaceful, having said to her
children that there is a better place
for us.

Dearest mother thou hast left us,
And thy loss we deeply feel;
But 'tis God who has bereft us;
He can all our sorrows heal.

CHARGES FOR OBITUARIES.

AND CARDS OF THANKS.
Readers will kindly take notice
that there is a charge of five cents a
line (six words to the line) for all
obituaries exceeding 15 lines, (90
words). We print all obituaries less
than 15 lines in length free of
charge. Cards of thanks we charge
five cents a line (six words to the
line). The minimum charge for card
of thanks is 25 cents.

The Worm Eater.

Even "worm holes" are no guarantee
of extreme old age in furniture, as was
demonstrated some time ago in the law
courts, when a woman came to excuse
her husband's absence from the court
on account of illness. "What is your
husband?" asked the judge. "A worm
eater, my lord," was the reply. "A
what?" asked the judge again. "I
don't wonder he's too ill to attend." The
woman then explained that her
husband was so called not because he
was addicted to this peculiar form of
diet, but because his trade was to drill
these holes in new furniture to give
it the appearance of antiquity.—London
Tatler.

Compensation.

Corkins—I don't know how I do it,
but I can always tell what time of day
it is without looking at a watch or
clock. McStab—To be sure. Nature al-
ways confers instinct upon creatures
that lack the higher faculties.—Chicago
Tribune.

The surest way to test a man's mem-
ory is to lend him money.—Detroit
Free Press.

There is a special examination in
Tuscan cities for female barbers,
who are yearly growing more nume-
rous.

fabric in fancy colors of light blue, green, lavender and gray—at
per yard, Tuesday. **50c**

MEYER & LINDORF

EASTERSIDE

is synonymous of the joyous
awakening of nature and
springtime when the "young
man's fancy lightly turns to
thoughts of love"—and his
bank account.

A great love and a slim
purse are poor companions,
and a young man that pos-
sesses them wishes he had
saved his money to make a
nest for the bird he would
like to shelter.

Be wise in time and start

THE LICKING COUNTY BANK & TRUST CO.

A Cheerful But Busy Place

Always something doing for the dentists of this es-
tablishment. Always busy, always cheerful. Confid-
ence of themselves, inspiring, confidence in their
patients. They know their business, and the pa-
tients know they know it. Have you the same
confidence in your dentist?

Full Set of Teeth \$5 Up.	Gold Crowns \$4 Up.	Bridge Work Per Tooth \$4 Up.	Fillings 50c up.
